The workshop was organised on 13th& 14th September,2023, Time:11:00 AM–04:00PM. About 18 faculty members registered for this session. The webinar wasadvised by Prof.(Dr.) Chandan Chattoraj, HOD, Professor and coordinated by Dr. Manoj Kundu, Assistant Professorof Mechanical Engineering Department.

The speaker Mr.Jitendra Kumar Nath is a B.Tech in Electrical Engineering and has 12 years of industrial experience on 3D modeling. Currently he is working as a Senior Application Engineer & Fusion Specialist in Twintech Engg & Design Tech P Ltd. His areas of interest lie in 3D modeling. He is responsible for conducting seminars, Training and involved in various Technical support for Academic Institute.

The other speaker Mr.Niranjan Kumar Singh is a B.Tech in Mechanical Engineering and has 22 years of industrial experience on 3D modeling. Currently he is working as a Director & Technical Head in Twintech Engg & Design Tech P Ltd. His areas of interest lie in 3D modeling. He is responsible for conducting seminars, Training and involved in various Technical support for Academic Institute.

The speakers divided the whole session into four sections and allowed the faculty members to interact. For efficient 3D design, Autodesk Fusion 360 is an easy to use parametric design modular, meaning you can easily edit the design at any stage in the design process. This industry ready software is used for planning, visual ideation, modeling, feasibility assessment, prototyping, and project management. A few 3D models were displayed to explain different functions of Autodesk Fusion 360. The audience got enough opportunities to clarify their doubts.
