

International Journal of Mathematics in Operational Research

2024 Vol.27 No.3

Pages	Title and author(s)
291-304	A backorder inventory model considering price-sensitive and stock-dependent demand Dharma Lesmono; Taufik Limansyah; Ignatius A. Sandy DOI: 10.1504/IJMOR.2024.138053
305-316	Decision-making analysis for a new variant of the classical secretary problem Yu Wu DOI: 10.1504/IJMOR.2024.138054
317-327	Statistical-based multi-criteria decision making approach for prediction of the grade of an institution in NAAC Sukarna Dey Mondal; Dipendra Nath Ghosh; Pabitra Kumar Dey DOI: 10.1504/IJMOR.2024.138055
328-353	A single server finite buffer Geom/ G/1/ K queue with L limited service and multiple vacation policy K. Sikdar DOI: 10.1504/IJMOR.2024.138058
354-376	Multi-goal multi-product fuzzy solid transportation problem via goal programming technique Gollapudi Prathyusha; K.N. Udaya Kumar; G.A. Vatsala DOI: 10.1504/IJMOR.2024.138059
377-392	Cyprinus carpio feed cost optimisation using the linear programming technique: a case study in Iraq Qusay Mohammed Abdulateef; Syariza Abdul-Rahman; Hazem Sabri Abedalhammed DOI: 10.1504/IJMOR.2024.138063
393-413	An EOQ model for seasonal product with ramp-type time and stock dependent demand, shortage and partial backorder Prokash Mondal; Pritha Das; Sudhansu Khanra DOI: 10.1504/IJMOR.2024.138057
