**NOTICE**

This is for information of all concerned that, Institute has taken initiative to maintain a serene academic environment conducive for better teaching-learning process. The team of Campus Administration has initiated a drive to reduce the usage of personal vehicle inside the campus.

Vehicles of uncivilised people trespassing into the campus of Dr. B. C. Roy Engineering College, Durgapur, make disturbing and distracting noise pollution by altered silencers, with high decibel China horns.

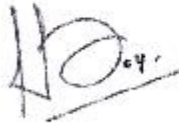

Henceforth, the students must keep their 2-wheelers near the main gate. During the academic hours from 10.00 am to 5.30 pm, students will not be allowed to use the main road from the college entrance gate to hostel in any kind of vehicle; during such hour, students should take the parallel road adjacent to Girls' hostel and Professors' quarters. From 5.30 pm to 10 am, the parallel road will remain closed.

Speed level limit of the 2-wheelers should not be above 20 km per hour inside the campus. Notification displayed at designated places mentioning the speed limit should be adhered to.

All concerned are requested to note that outside vehicles are not allowed inside the college campus to maintain a pollution and noise free environment, effective forthwith.

Staffs of Campus Administration and Security Personnel are advised to implement the above directives and any person violating the above rules should be brought to the notice of the undersigned and the Disciplinary Committee of the college.

All concerned are requested to extend full cooperation in this regard.

### NOTICE

Going green is a mindset that involves continual pursuit of knowledge regarding how to live life in an environmentally friendly and responsible way. In addition to big things that reduce people's carbon footprint, individuals can adopt small, everyday practices and behaviors that help protect the environment and preserve natural resources for current and future generations. Many institutions are implementing simple everyday things to larger innovative practices and policies to help protect the planet and preserve resources for future generations.

With the above motto, Dr. B. C. Roy Engineering College, Durgapur, has implemented **green practices to promote environment friendly and healthy commuting habits amongst students and the staff members.**

The college is encouraging the students and the staff members to ride **bicycles** over cars which help to protect the environment by reducing harmful emissions. Students are being counseled that **bicycle** riding is an easy way to do their part in helping to preserve planet and keep their own **college campus** free of stinky exhaust fumes.

All concerned are requested to extend their fullest cooperation by using bicycles and contribute towards energy conservation and reducing carbon emission to keep the campus green and sustainable.

### NOTICE

Being good environmental stewards mean teaching students to carry the torch after graduating and leaving the campus. With the above objective, **green practices** are a way of life at Dr. B. C. Roy Engineering College, Durgapur.

There has been a global movement towards the phase-out of lightweight plastic bags as plastic bags are polluting the land and water immensely. The college has initiated drives to reduce the usage of plastics to the barest minimum on and off the campus. Even the college is trying to ban the usage of plastic bags inside the campus. Since **Styrofoam** creates harmful air pollutants which contaminate landfills and depletes the ozone layer, use of Styrofoam inside the campus is also prohibited.

The NSS Wing of the college has also initiated a '**No Plastic Awareness**' campaign to sensitize all concerned about hazards of using plastic.

All concerned are requested to extend full co-operation in this regard to maintain the BCREC campus clean and plastic free.

**Notice**

**World Environment Day (WED)** is celebrated on 5 June every year, and is the United Nations' principal vehicle for encouraging awareness and action for the protection of the environment. It has been a flagship campaign for raising awareness on environmental issues emerging from marine pollution, human overpopulation, and global warming, to sustainable consumption and wildlife crime.

Dr. B. C. Roy Engineering College, Durgapur, will be celebrating **World Environment Day on 5<sup>th</sup> June 2019**. To commemorate this occasion, a **Tree Plantation Drive** with the initiative of NSS wing will be held at 10 AM at the college premises. Subsequently, an orientation program will also be conducted to sensitize students about green practices.

Considering the manifold benefits of trees, including that they release oxygen into the air, absorb unpleasant odours as well as harmful gases such as carbon dioxide, carbon monoxide and sulfur dioxide from the air and purify it, protect us from dangerous ultra-violet rays, provide us with food and the pivotal role played by trees in preventing soil erosion, maintaining ecological balance and most especially in lessening the effects of global warming, the NSS team of the college conducts **tree plantation drive** once a year on World Environment Day.

All the members of the faculty and staff are requested to attend the event and make it a grand success like previous years.
