Live Webinar organised by Mechanical Engineering Department on 'Digital Supply Chain Transformation' on 13th November, 2021, Time: 03:30 – 04:30 PM.

Resource person: Mr. Safikul Shah, HOD-Warehousing & Logistics, Tata Motors Ltd., Thane, Maharashtra

Registration Link: <https://forms.gle/aXJVLRVSPyBDacgS6>

Google meet link: <https://meet.google.com/mjh-uatu-xns>

Faculty Coordinator: Prof.(Dr.)Chandan Chatteraj, HOD & Professor of Mechanical Engineering Department

The Webinar was organised on 13th November, 2021 from 03:30PM to 04:30PM in Google Meet virtual platform. About 158 students and 12 faculty & staff members registered for this session. The webinar was coordinated by Prof.(Dr.)Chandan Chatteraj, HOD & Professor of Mechanical

Engineering Department. Prof. C. Chattoraj welcomed all the participants on behalf of Mechanical Engineering Department and introduced the speaker.

The speaker Mr.Safikul Shah completed BE-Mechanical from NIT Durgapur, MBA from Symbiosis Institute, then completed Course on Warehouse designing from IIM Ahmedabad. He attended program of Dr. Kano on advance TQM (Total Quality Management) and various supply chain program as a speaker. He had received various awards on Supply chain like Golden peacock, Innovista, etc. He had published article in TATA Group web page. He has more than 22 years' experience in various field in automobiles. Presently he is working with TATA Motors as a Head warehousing and Logistics.

The speaker divided the whole session into small sections and allowed the students as well as faculty members to interact. An overarching and unavoidable revolution, digital transformation is driven by the confluence of several different technological disruptions, including Big Data and analytics, unprecedented connectivity via machine-to-machine and human-to-machine interaction, 3-D printing, automation, artificial intelligence and augmented reality. The digitization of the supply chain promises to reduce inefficiencies and lower costs while improving flexibility—critical ingredients for boosting resiliency.

The pandemic's disruptive impact on global supply chains has heightened the need for organizations to focus on risk mitigation and increasing resiliency. By capitalizing on digital technologies and increasing real-time visibility into every part of the value chain, companies can more proactively identify areas of potential risk prior to an issue, or more quickly notice and respond to disruption. The participants got enough opportunities to clarify their doubts.

The session was ended with vote of thanks by Prof.(Dr.)Chandan Chattoraj.

List of registered participants is attached (below).
