One day Webinar for final year and pre-final year students organised by **Department of Civil Engineering**, Dr. B. C. Roy Engineering College, Durgapur on **“Guidance for Graduate Aptitude Test and Prospects of Higher Education in Civil Engineering”**

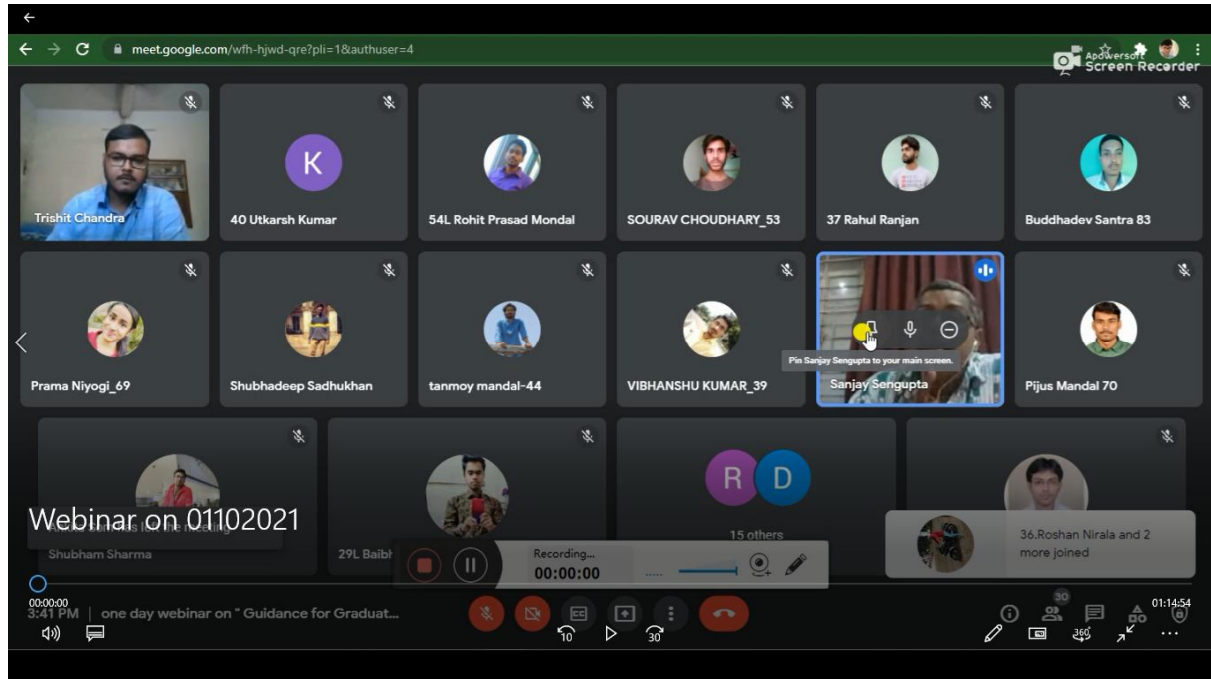

Guest Speaker: **Mr. Trishit Chandra**, Alumni-2019 batch, Department of Civil Engineering, Dr. B. C. Roy Engineering College, Durgapur.

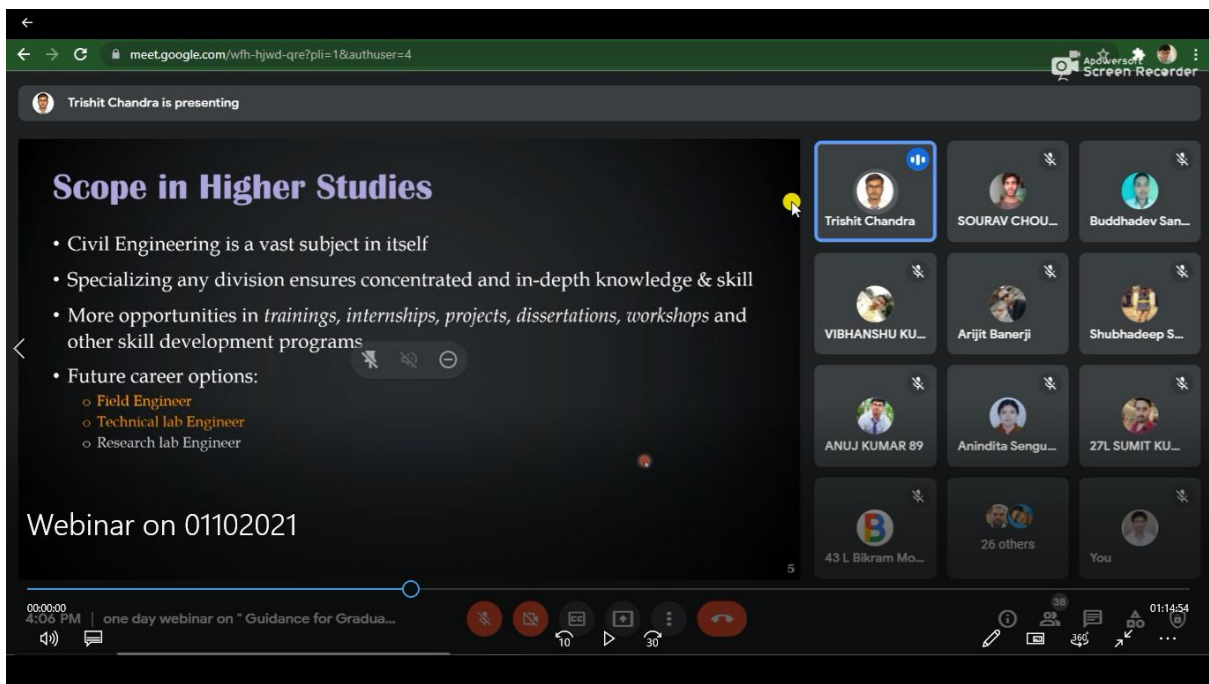

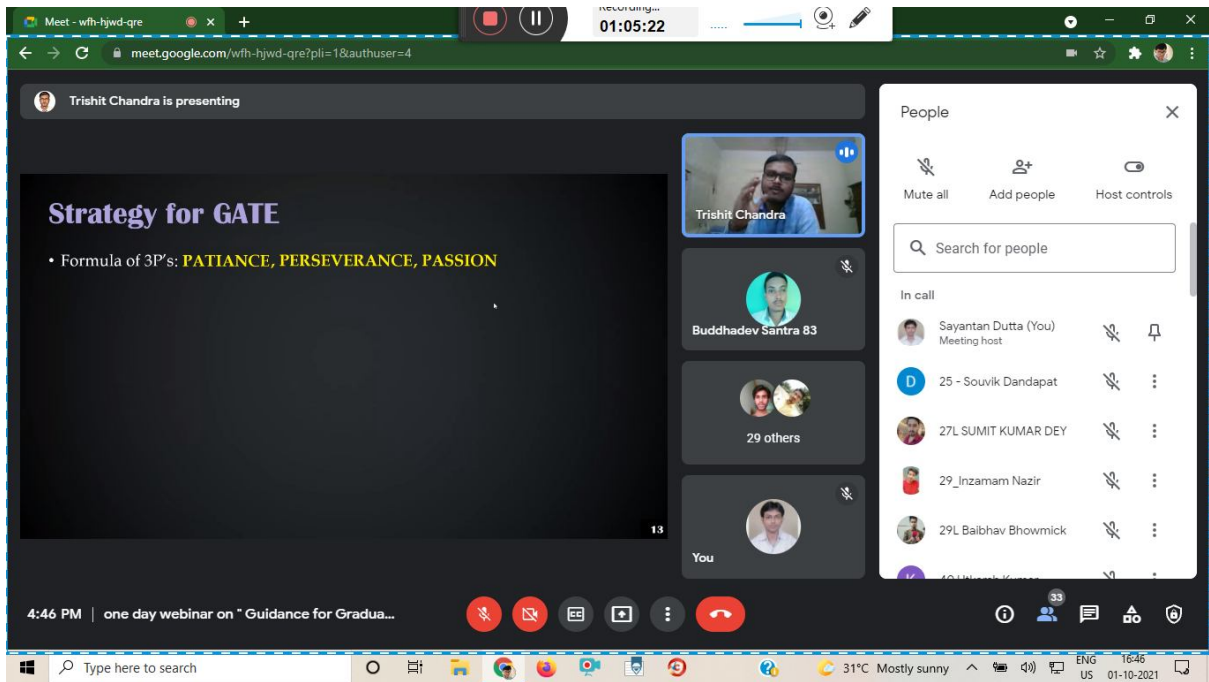

Date: **01.10.2021**, 03:30 PM onwards.

Program Summary:

The webinar was organized on 1st of October, 2021 from 03:30 pm in Google meet virtual application. Mr. Trishit Chandra, our alumni of 2015-2019 batch has completed his M.Tech on Structural Engineering from NIT Kurukshetra and now pursuing his Ph.D. from IIT Chennai.

He fabulously explained the nature of study, that one final year student should follow for their higher study perspective and guided them to understand different subjects and sub-branches for a research purpose. Finally, a very good interaction session is continued between the speaker and the participants, ending with a successful and effective discussion, implanting future motivation for their career perspective.

The webinar was a grand success with a handsome number of participants and very good interaction session.

Report on Webinar in Hybrid-Mode on “Opportunities & Challenges of a Civil Engineer in the Industry” by the Department of Civil Engineering, BCREC

The Department of Civil Engineering, Dr. B.C. Roy Engineering College, Durgapur organized a hybrid-mode webinar on “Opportunities & Challenges of a Civil Engineer in the Industry” on the 10th of May 2022. Mr. Raj Kumar, currently a site engineer in Gayatri Projects & an alumnus of the department of civil engineering BCREC (batch of 2020) was invited to share his experience with the students. A group of around 60 students gathered in the seminar hall of the department. The program was scheduled from 03:00 pm afternoon in the hybrid mode. Mr. Raj joined through google meet. He explained his early struggles as a site engineer and his way of visualizing those challenges. He focussed on the fact that the pressure of achieving the target is high and the time which is necessary for performing that activity falls short of achieving the target. His opinion, which was also a suggestion for the current students that a balanced attitude is required to achieve the target with the benchmark quality of a civil engineer. He advised the current students of our institute, who choose to pursue a career as site engineers should like to work with numbers since their professional activity involves many calculations. It is important for this professional to be very organized and meticulous in their projects. He said about another important characteristic of being a successful civil engineer is to follow the sector trends and to be aware of the new technologies directed at civil construction. Students thoroughly enjoyed the session and interacted with the presenter with a few questions at the end. Prof. Hamjala Alam, Assistant Professor, Department of Civil Engineering, concluded the program with a vote of thanks.
