Dear Subham,

It is my pleasure to inform you that the Department of Civil Engineering, Dr. B. C. Roy Engineering College, Durgapur is going to organize an online Alumni Connect lecture on 26th July 2023. Theme of the lecture is "Career Opportunities of Civil Engineering in Steel & Highway Construction Industry"

We would like to invite you as the speaker for the event. I am expecting a positive response from you. Prof. Amit Kotal will coordinate with you for the program.

Regards,

Sanjay Sengupta

Dear Subham,
On behalf of our HoD, I am sending this invitation letter to you. Please find the attachment. I am eagerly waiting for your positive response.

Thanks & Regards,

Amit Kotal,
Assistant Professor,
Department of Civil Engineering,
Dr. B.C. Roy Engineering College, Durgapur

Respected Sir,
I want to thank you for your gracious invitation to be a guest speaker for the seminar Career Opportunities of Civil Engineering in Steel & Highway Construction Industry. I am very pleased and delighted to accept this invitation.
Please note that I will be available in the second half, so my preferred timing is 03:00 pm

Thanks & Regards,
Subham Chakraborty

Dear Students,

Civil Engineering Department is going to organize a Alumni Connect seminar on "Career Opportunities of Civil Engineering in Steel & Highway Construction Industry". It will held on Wednesday (26th July 2023) in the Seminar Hall of our Department from Sharp 2:30 pm.

All the speakers are our alumni from the class of 2020 they will share their industrial experience with you. This is my gentle request to all of you must attend this interaction seminar without fail. I hope this will enhance your knowledge and connection with your senior. Details are given in the flyer attached to this mail.

The link for registration is given below;

Alumni Connect Seminar on "Career Opportunities of Civil Engineering in Steel & Highway Construction Industry."

Dr. B.C Roy Engineering College, CE dept

Date: 26/07/2023

Introduction: The Alumni Connect Seminar on "Career Opportunities of Civil Engineering in Steel & Highway Construction Industry" was organized by the Civil Engineering Department with the primary goal of enlightening current civil engineering students and young professionals about the vast and promising prospects in the steel and highway construction sectors.

Objective: The seminar aimed to provide attendees with valuable insights into the specific roles civil Engineers can play in these industries, the emerging trends, challenges, and opportunities for career growth.

Key Highlights:

1. Expert Speakers: Esteemed alumni who have made remarkable strides in the steel and highway construction industry were invited to share their experiences and expertise. They shed light on the practical aspects of their roles and the various pathways available for aspiring civil engineers.

2. Current Industry Trends: The seminar explored the latest trends and advancements in the steel and highway construction sectors. It covered topics such as sustainable construction practices, innovative materials, technology integration, and the growing emphasis on environmental considerations.

3. Career Pathways: The speakers elaborated on the diverse career pathways within these industries, ranging from project management and structural design to research and development. They emphasized the importance of gaining hands-on experience and encouraged internships to bridge the gap between academic knowledge and real-world applications.

4. Industry Expectations: Attendees gained valuable insights into the essential skills and qualities required to excel in the steel and highway construction sector. Effective communication, problem solving, teamwork, and adaptability were highlighted as crucial attributes.

5. Networking Opportunities: The seminar provided a platform for students and young professionals to interact with successful alumni and industry experts. This networking session offered the chance to establish meaningful connections and potentially explore internship or job opportunities.

6. Interactive Workshops: The event also featured interactive workshops and panel discussions, allowing participants to engage in practical exercises and ask questions to deepen their understanding of specific aspects of the industry.

Conclusion: The Alumni Connect Seminar on "Career Opportunities of Civil Engineering in Steel & Highway Construction Industry" successfully achieved its goal of educating and inspiring the next generation of civil engineers. Attendees left with a broader perspective on the potential career paths in these industries and the determination to make significant contributions to the future of sustainable and efficient construction.

By leveraging the knowledge and experiences shared during the seminar, students and young professionals are better equipped to make informed decisions about their career trajectories and contribute meaningfully to the growth and development of the steel and highway construction sectors.
