2	Dr. Sovan Bhattacharya	AYIPB3518N	PhD	Machine Learning	Assistant Professor	18-12-2020	N/A	Y	Regular	N/A	N/A
3	Dr. Saibal Majumder	APBPM4093D	PhD	Multi-Objective Evolutionary Computing, Machine Learning.	Assistant Professor	11-07-2023	N/A	Y	Regular	N/A	N/A
4	Prof. Banashree Chatterjee	BBLPC7516E	MTech (PhD pursuing)	Machine Learning	Assistant Professor	18-12-20(Joined as Assistant Professor in the department of CSE(DS) on 16-05-2024)	N/A	Y	Regular	N/A	N/A

D. DEPARTMENTAL DECENTRALIZED WORKING STRUCTURE

Different Departmental committees with minutes of meeting of the committees (for decentralized working)

(Only provide Structure / Committees etc. Minutes of meetings will be cross verified at time of audit)

E. MINUTES OF THE MEETING

Internal Department Meeting minutes showing the discussion on the following issues. Whether students and parents are part of some meeting. Please provide whether the following are done by mentioning Yes / No (Keep documents ready for verification by the audit team)

a. Subject Allocation
b. Lesson plans
c. Syllabus Coverage
d. Feedback Analysis & Action taken
e. Program outcome and curricular Gap identification
f. Mentoring
g. Add-on-Courses

S. SWOT ANALYSIS

SWOT	ANALYSIS
STRENGTH:	1. **Specialized Program**: The focus on Data Science is a key strength as it's a rapidly growing field with high demand in industries. 2. **Dedicated Faculty**: With four faculty members(three faculty members arePhD. holders and one faculty member is pursuing PhD.), the department benefits from personal interaction between faculty and students, fostering a collaborative learning environment. 3. **Technical Support**: Having a dedicated and qualified technical assistant ensures smooth lab operations and technical support for students and faculty. 4**. Labs Availability**: Two labs provide hands-on experience, essential for Data Science, where students can work on projects and practice using tools and technologies**.** The desktop laptops available in the lab all have Intel(R) Core(TM) i5-10500 CPU @ 3.10GHz 3.10 GHz processors with 8 GB RAM.
WEAKNESS:	1. **Limited Faculty**: Only four faculty members might lead to an overburdened staff, which can affect the quality of teaching, mentoring, and research. 2**. Resource Constraints**: Only two classrooms and two labs may restrict growth or hinder flexibility in scheduling for lectures and practical sessions. 3. **Limited Infrastructure**: The department might face challenges in expanding its capacity to accommodate more students, especially as demand for Data Science programs increases. 4. **Lab Infrastructure**: If the labs are not equipped with the latest hardware and software tools necessary for data science projects (e.g., high-performance computing, data visualization tools), it could limit the practical exposure of students.
OPPORTUNITIES:	1**. Industry Collaboration**: The Data Science field offers ample opportunity for collaboration with industries, which can bring internships, real-life projects, and research opportunities for students and faculty. 2**. Research and Development**: With the growing demand for data scientists, there is a significant opportunity to develop research projects, publish papers, and establish a strong academic reputation. 3. **Expansion of Courses**: The department can expand by introducing more advanced topics or certificate courses in AI, machine learning, and big data analytics, attracting more students. 4. **Placement Opportunities**: Tapping into the growing data-driven industries (IT, finance, healthcare) can improve student placements and establish strong industry ties. 5. **Government and Institutional Funding**: There are various government initiatives promoting STEM education, and Data Science departments can benefit from grants or collaborations aimed at skill development.
Threats / Challenges:	1. **Competition from Other Institutes**: Many universities and colleges are offering similar programs, so maintaining and enhancing the department's reputation is vital. 2. **Technological Advancements**: Rapid advancements in the field of data science require continuous updates in curriculum, faculty training, and infrastructure. Failure to keep up could lead to outdated skills being taught. 3. **Resource Limitations**: The limited number of classrooms and labs might hinder the department's ability to accommodate an increasing number of students or scale its offerings effectively. 4. **Student Placement Pressure**: With the growing number of Data Science graduates, competition for top-tier placements is fierce. Ensuring good placement rates might be challenging without strong industry ties.

The meeting was attended by the faculty and staff members of the CSE department on 08/06/2023.

Meeting Agendas:

1. **Progress & Completion of NBA work**

   HOD, CSE informed all that, today we are going to submit NBA prequalifies. We have 60 more days to submit SAR. All DAC members are requested to complete their pending work by next week. All criteria should be verified by crosschecking with evaluation criteria.

2. **Subject and Load Distribution**

   HOD, CSE informed all about their next semester's allocated subject and distributed different responsibilities to all individuals.

3. **Student Project and Publication**

   HOD shared different ideas about improving the project quality that had been discussed with the principal of BCREC and asked everyone to focus on research-based work and submit one paper to a conference.

4. **Research Publications**

   HOD, CSE asked the entire DAC member to focus on different domains for research activity and to involve students for publication in conferences, journals or in book chapters.

5. **Misc**

   HOD, CSE informed all about the cyber security club formation.

The meeting was attended by the faculty and staff members of the CSE department on 26/09/2023.

Meeting Agendas:

1. **Status of NBA documentation**

HOD, CSE asked all to complete the CO-PO attainment for the upcoming NBA visit and submit it through the proper link shared by him within the stipulated time.

2. **Course completion status**

All of the DAC members were questioned by the HOD, CSE, regarding the amount of courses that have been finished thus far. He encouraged everyone to take action so that the course would be finished at least one week before the final test.

3. **Conduction of CA3**

The HOD, CSE, asked everyone to draft a question for the CA3 test in accordance with university guidelines and announced that the department would supply a template where the relevant CO would need to be noted. The exam cell member's representative explained how the exam will be conducted smoothly.

4. **Evaluation of final year project**

The HOD requested that all mentors ask their project teams to provide documentation and to be encouraged to turn their project work into a published form as the monthly evaluation procedure for the final year project has already been finished.

6. **Publications**

The HOD, CSE, updated everyone on the status of the publications and gave everyone the advice to concentrate more on that in order to increase the number and quality of departmental research efforts.

The meeting was attended by the faculty and staff members of the CSE department on 28/11/2023.

Meeting Agendas:

1. **Mentor Allotment**

   HOD, CSE informed all about allotment of mentees for the current first year students who got the university registration along with the lateral students from second year. It is also advised by the HOD to provide all the necessary do's and don'ts information to individual mentee.

2. **Course completion feedback**

   In order to ensure that students have no trouble answering questions pertaining to a particular section of the syllabus, the Head of Department (HOD) gathered information from each faculty member regarding the percentage of the course that has been covered thus far. If any particular portion of the syllabus for any subject is still uncovered, it should be covered by sharing notes, PowerPoints, etc. with the students.

3. **Smooth Conduction of Sessional Exam**

   HOD, CSE instructed everyone to take the required actions to ensure a smooth sessional test conducted in accordance with the guidelines supplied by the university at the appointed time and promptly upload all of the results to the university website.

Ref: BCREC/CSE /DAC/2022-23/006 **Date: 14/07/2023**

The meeting was attended by the faculty and staff members of the CSE department on 14/07/2023.

Meeting Agendas & Resolutions:

1. **Status of NBA documents and uploading**

   HOD, CSE asked all to complete the uploading of data by the end of the month. All criteria should be verified by crosschecking with evaluation criteria as per NBA guidelines.

2. **Strictness for attendance and actions taken to improve academic quality**

   It has been decided by the DAC members to maintain strict attendance of students for the upcoming CA1 exam as per university rules.

3. **Measure for conducting CA1**

   As per University guidelines, the topic for the presentation should be allocated by the end of the current month, and evaluation to be done based on rubrics. It is also decided that the evaluation of CA1 can be conducted during the residue time of the practical sessions.

4. **List of add-on courses to be offered to the students from the department and modes of operations**

   The DAC members agreed that the department should offer two more add-on courses: Cyber Security and Foundation of Data Science & Machine Learning. The DAC also approved another add-on course, Malware Detection and Analysis (MDA), for 3rd Year students. The project coordinators were also advised to complete the project allocation for 3rd-year students.

5. **Evaluation of final year project and allocation of the project for 3rd-year students**

   DAC decided to conduct monthly presentations for each final year project group for a better understanding of their progress in work and an evaluation mechanism. It is also decided that each presentation will carry 10(ten) marks which will be considered during the end-semester evaluation.

6. **Planning of R&D activities and publications**

   HOD, CSE informed all about the available R & D budget and asked all members to utilize the amount for different publications and research activities. The discussion has been made related to the improvement of the quantity and quality of research work done by the member of the CSE department.

The meeting was attended by the faculty and staff members of the CSE department on 29/08/2023.

Meeting Agendas:

1. **Distribution of NBA documentation work**

   HOD, CSE has shared a file with all DAC members, specifying their respective responsibilities regarding various documentation tasks related to NBA work. HOD, CSE instructed all to adhere to the deadline for the preparation. The criteria coordinator should also make sure to prepare certain documents that are not included in the list of files as separate entities.

2. **Preparing course file**

   All members will receive a standardized file format for course file preparation. It has been recommended by the HOD to follow that format while preparing course file documentation.

3. **Preparation of attainment for the academic year 2022-23**

   HOD, CSE advised all members of the DAC to prepare attainment of their assigned subject for the academic year 2022-23.

4. **Conducting regular class**

   HOD, CSE has recommended to all members of the DAC that they should ensure their classes are conducted in a timely manner. In the event of an absence, they should coordinate with other faculty members to reschedule the missed class.

5. **CA2 and PCA1**

   HOD, CSE advised all to take the required actions to carry out the CA2 and PCA1 exams on time and submit the marks in the university portal before the specified deadline.

6. **Final year project**

   The department has already started a monthly project presentation procedure, which has been overseen by the project monitoring committee. Faculty are urged to take note of these recommendations and counsel students to make required changes for further improvement.

The meeting was attended by the faculty and staff members of the CSE department on 05/06/2024.

Meeting Agendas:

1. **Subject Distribution and LMS**

   The allocation of subjects for the upcoming semester has been completed with utmost consideration given to the preferences of the faculty, with only a few exceptions. Additionally, the Head of the Department has emphasized the importance of incorporating the Learning Management System (LMS) for course delivery and has advised all faculty members to use LMS platforms mandatorily in the upcoming semester.

2. **Recommendation of Library Books for Upcoming Semester**

   A notice is being circulated to recommend books from the available list and, if not available, to recommend them for purchase. It has also been discussed that the latest editions of books can be ordered due to the outdated nature of many books in the library.

3. **Review of Mission, Vision and PSO**

   The HOD of CSE has informed that a departmental-level committee will be formed to re-evaluate and review the Mission, Vision, and PSOs in accordance with the NBA visit report. This committee will thoroughly analyze the feedback and recommendations provided in the NBA visit report. It will be responsible for incorporating necessary changes or updates to the Mission, Vision, and PSOs.

4. **Review of Course Outcomes for Upcoming Semester**

   It is imperative to review and verify certain course outcomes for the present semester, aligning them with the university's established course objectives and making any necessary modifications as deemed appropriate.

5. **Computation of CO for Academic Year 2023-24 ODD Semester**

   Present members were advised to complete the computation of Course Outcomes for the July-December semester of 2023.

6. **Introduction of Infosys Campus Connect and Red Hat Academy**

   The HOD, CSE, has informed about the implementation of Infosys Campus Connect and Red Hat Academy courses for students in their second and third years. Obtaining certificates from these courses can prove beneficial for acquiring MAR points.

7. **Research and Publication**

   The HOD, CSE, has recommended that everyone take the required measures and prioritize research in order to ensure that each faculty member participates in publication in the upcoming academic year. The current average number of publications is approximately 2.5, and there is a need for improvement in this regard.

8. **Organization IEEE Conference**

   The HOD, CSE has informed present members about the forthcoming IEEE conference scheduled to be organized by the department during July of 2025 as a part of the silver jubilee celebration of the institution. The required approvals have been obtained from the appropriate authority. An organizing committee will be formed in due course.

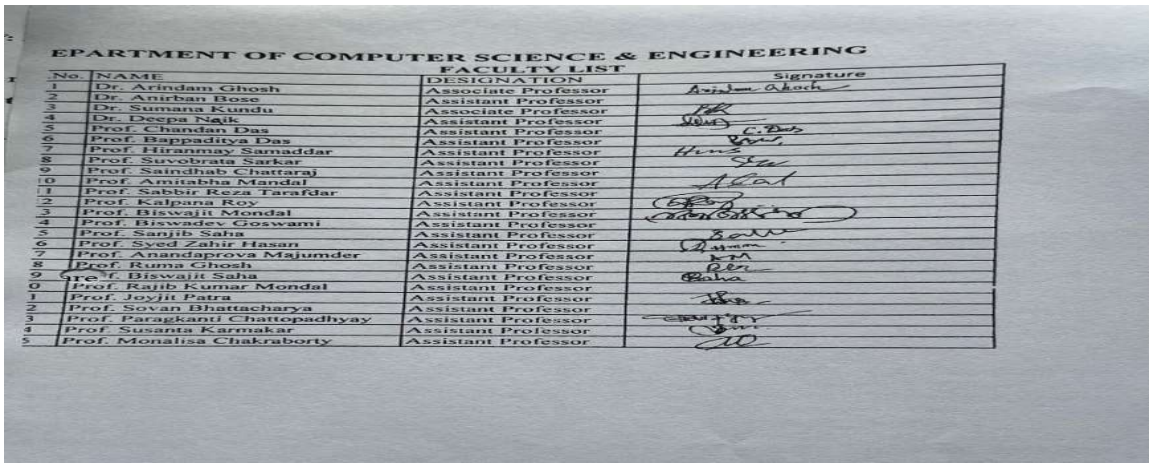

9. **MOU Signing with AEM Technologies**

   The HOD, CSE briefed the present members about the Memorandum of Understanding signed between BCREC and AEM Technologies on the 11th of June, 2024. This agreement is expected to enhance the understanding of open source technologies within students.

Q. FEEDBACK (STUDENT, PARENT, ALUMNI) (CSE)

Feedback is taken and action taken reports are prepared and submitted to IQAC at the end of semesters and also at the completion of the course.

Dr. B. C. Roy Engineering College, Durgapur

Department of Computer Science & Engineering

Ref: BCREC/CSE /DAC/2023-24/005 **Date: 05/05/2024**

The meeting was attended by the faculty members and staff of the CSE department.

Meeting Agenda:

1. Feedback Analysis
2. Program outcome and curricular gap identification

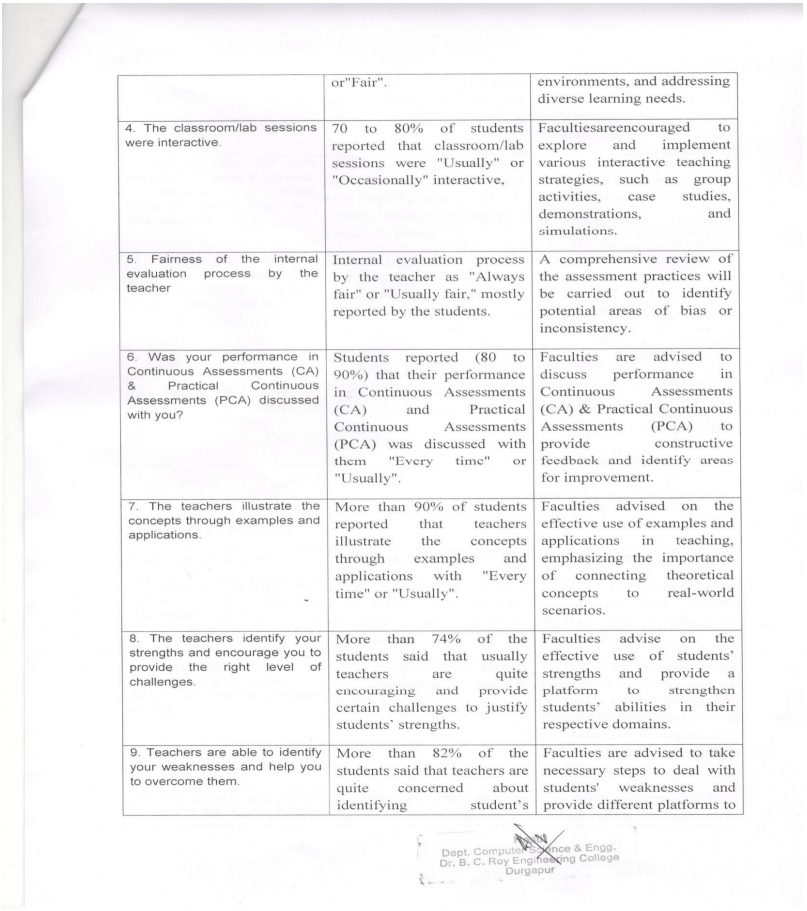

Minutes:

A Special DAC gathering convened on May 5th, 2024, at 3:00 PM in Lab 3 with the purpose of discussing and finalizing the Action Taken Report. This report was formulated based on feedback received concerning Academics, Facilities, and Course-End Feedback for the Academic Year 2023-24. The feedback, which was garnered from students belonging to the Computer Science and Engineering Department, was submitted through the college website. The below are the primary points highlighted in the Action Taken Report:

Course End Feedback:

Feedback Statement	Feedback from student	Action Taken
1. Teachers inform you about the relevance of the course to your discipline/stream and corresponding course outcomes and program outcomes.	Some students felt that this aspect was adequately addressed in certain courses, while others felt it was lacking.	Sessions will be organized for faculty members to improve their understanding of course outcomes and program objectives.
2. How much of the syllabus was covered in the class?	The majority of the students reported that 70 to 84% of the syllabus was covered in class.	Faculties are advised to provide additional resources such as supplementary reading materials, online tutorials, and extra practice sessions to help students catch up on missed topics.
3. The teacher's approach to teaching can best be described as	Mixed responses were received for the teacher's approach to teaching as "Very good", "Good" or"Fair".	Faculties are advised to focus on techniques for increasing student engagement, fostering interactive learning

	or"Fair".	environments, and addressing diverse learning needs.
4. The classroom/lab sessions were interactive.	70 to 80% of students reported that classroom/lab sessions were "Usually" or "Occasionally" interactive,	Facultiesareencouraged to explore and implement various interactive teaching strategies, such as group activities, case studies, demonstrations, and simulations.
5. Fairness of the internal evaluation process by the teacher	Internal evaluation process by the teacher as "Always fair" or "Usually fair," mostly reported by the students.	A comprehensive review of the assessment practices will be carried out to identify potential areas of bias or inconsistency.
6. Was your performance in Continuous Assessments (CA) & Practical Continuous Assessments (PCA) discussed with you?	Students reported (80 to 90%) that their performance in Continuous Assessments (CA) and Practical Continuous Assessments (PCA) was discussed with them "Every time" or "Usually".	Faculties are advised to discuss performance in Continuous Assessments (CA) & Practical Continuous Assessments (PCA) to provide constructive feedback and identify areas for improvement.
7. The teachers illustrate the concepts through examples and applications.	More than 90% of students reported that teachers illustrate the concepts through examples and applications with "Every time" or "Usually".	Faculties advised on the effective use of examples and applications in teaching, emphasizing the importance of connecting theoretical concepts to real-world scenarios.
8. The teachers identify your strengths and encourage you to provide the right level of challenges.	More than 74% of the students said that usually teachers are quite encouraging and provide certain challenges to justify students' strengths.	Faculties advise on the effective use of students' strengths and provide a platform to strengthen students' abilities in their respective domains.
9. Teachers are able to identify your weaknesses and help you to overcome them.	More than 82% of the students said that teachers are quite concerned about identifying student's	Faculties are advised to take necessary steps to deal with students' weaknesses and provide different platforms to

	weaknesses and providing certain advice to overcome them.	the students to make them profitable in terms of overcoming their weaknesses.
10. Teacher used ICT tools (Projectors/Screens/Multimedia demonstration slides, Interactive online tools etc.) while teaching	For the senior students, most of the teacher uses ICT tools for teaching whereas in the junior semester, the scenario is not the same.	Faculties are advised to use different ICT tools for junior semester students as well.
11. The knowledge from the course can be applied to solve real life/industry specific problems/societal needs.	82% of the students said that the knowledge they earned from different courses is helpful in solving different real-life / industry-specific problems.	Faculties are advised to go through certain topics that are beyond the syllabus of specific courses, which could be useful for solving real-life and industry-specific problems.
12. The overall quality of teaching-learning process of this subject is very good.	96% of students are satisfied with the overall teaching process.	Teachers are advised to use different activities to improve the overall teaching-learning process.

Semester End Feedback:

Feedback Statement	Feedback from student	Action Taken
Did you acquire any new technical or scientific knowledge?	75% of the total students agreed about acquiring new technical or scientific knowledge.	Faculties are advised to go through certain topics that are beyond the syllabus of specific courses.
Are you able to apply the knowledge and skills you gained in real-life problem solving?	67% of the students applied the knowledge to real-life problem	Faculties are advised to go through certain topics that are beyond the syllabus of specific courses, which could be useful for solving real-life and industry-specific problems.
Are the subjects you studied relevant to the current industry need?	58.33% of the students agreed about the relevance of subjects for the industry needs.	Few add on courses has been introduced by the department to reduce the industry academic gap.
Availability and adequacy of modern tools in the laboratories?	85.4% of the students satisfied with the available tools in the laboratories.	A good number of computer are replaced with new high configuration machines in different labs to enhance the quality of laboratory.
Are the experiments/practical prescribed in the subjects/courses helpful for your future?	71% of the students said that the practical experiments are helpful for future work	Teachers and Lab Assistants are advised to cover some more practical problems in the Lab so that it can be more helpful in future in solving different real-life problems.

V. SWOC ANALYSIS:

SWOC	ANALYSIS
STRENGTH:	• **Experienced Faculty with Strong Academic Backgrounds**: Teachers with high quality experience and academic background continuously trying to strengthen the students through Class and laboratory teaching, Industry/Research oriented project guidance, and regular mentoring and counseling of students. • **Excellent Placement Record**: Excellent overall placement of students in IT industry. • **Continuous Professional Development:**All faculty members are engaged in continuous up gradation of knowledge and teaching methodology through FDP and online courses. • **High-Quality Computing Resources:**Adequate and quality computing resources with proper maintenance.

	• **Active Research Engagement**: Pursuance of research by almost all faculty members and significant research contributions in some important fields. • **Comprehensive Student Support: A** wide range of support services, including academic advisingand career counseling provided to help students succeed both academically and personally.
WEAKNESS:	• **Limited Industry Partnerships:**Limited partnerships with leading companies restricting opportunities for internships, industry projects, and exposure to real-world applications of the skills being taught. • **Outdated Curriculum in Certain Areas:** Curriculum not regularly updated, leading to students learning outdated technologies or practices. • **Limited Alumni Involvement:** Although the department maintains some contact with alumni, there is limited alumni engagement in mentoring, networking, and contributing to curriculum development.
OPPORTUNITIES:	• **Expanding Industry Collaborations:** The department can increase partnerships with leading organizations to create opportunities for internships, industry projects, and job placements. • **Enhancing Alumni Engagement:** Engaging more with alumni can provide mentorship and career advice. Alumni can also help with networking and mentoring. • **Emphasizing Soft Skills Development:** Teaching soft skills like communication and teamwork can improve employability. • **Focusing on Interdisciplinary Collaboration:** Working with other departments can lead to innovative projects. Interdisciplinary work offers a broader perspective.
CHALLENGES:	• **Motivating Students for Research in Emerging Fields:** Encouraging students to engage in research in new and emerging fields is challenging. It requires creating interest and providing adequate resources and mentorship. • **Focus on Higher-Paying Job Placements:** There is a need to increase efforts on securing job placements with higher salary packages. This can help attract top students and improve the department's reputation. • **Rapid Technological Changes:** Keeping up with the fast pace of technological advancements is challenging. Constant updates to the curriculum are required to stay relevant. • **Maintaining Industry Relevance:** Bridging the gap between academic teaching and industry needs can be tough. Continuous collaboration with industry is necessary.

A. SWOT ANALYSIS:

SWOC	ANALYSIS
STRENGTH:	Highly Qualified and Experienced Faculty Members from esteemed Institutions of National or Global importance. They are highly dedicated and well mannered, having inherent skills for teaching. Good infrastructure for classroom teaching, Tutorial rooms, Smart Classroom and well-equipped Computer Laboratory
WEAKNESS:	1. Lack of Research Laboratory and Research Work. 2. Lack of Vocational Training and Internship.
OPPORTUNITIES:	1. Encouraging Job and Startup opportunities 2. Supporting Management 3. Conducive working environment 4. Providing Career Advancement Course to the students to make them Industry ready.
Threats / Challenges:	1. Students should be made more motivated for research activities and hands on work, more practical and real-life problem solutions. 2. Students should be motivated to make themselves prepared for Industry ready.

INTERNAL ACADEMIC AUDIT

DATE : 12-Sep-2024

Master of Computer Application:

Auditors: Dr. Sanjay Sengupta & Dr. Somroop Siddhanta

1. Faculty strength is adequate in the department. Present cadre ratio is 0:1:7.This needs to be improved.
2. It has been observed that some faculty members have been upgraded to faculty position based on their qualification from the previous positions e.g. technical assistant. The date of joining of such faculty members need to be changed to the date when they are upgraded to faculty position.
3. Course file preparation has been taken up seriously and Odd semester course file preparation is complete for all subjects. Even semester course file could not be completed as there is delay in post publication review by university. Once the same is over, course file for even semester will be also completed.
4. It has been observed that number of FDPs per faculty member is more than two in some cases. It is suggested that, one FDP of 6 days should be sufficient per faculty member for an Academic year. Faculty members may be encouraged to do self-paced certificate course on cutting edge technologies.
5. The journal publication and conference / book chapter publication is found to be too less. As the department is a PG department it is suggested that the culture of publication is Journal and conferences must be enhanced. PG students may be involved and encouraged to do one conference publication at least with their supervisors.
6. It is found that in some cases project group size is exceeding 3 to 4. This should be avoided as the department is a PG department. Project group size should be reduced to two students per group.
7. Workshop / seminar conducted by the department has not been reported in the audit report. It has been clarified by the departmental coordinator that two workshops were carried out and reported in the data repository. It is suggested to organize more workshop / seminar on recent trends through industry persons and alumni, such that students get familiar with the industry trends. Even it has been found that the budget kept for workshop / seminar remained unutilized.
8. Budget utilization is found to overall 72%. However, it has not been reported back to accounts department. The same should be done on priority. It has been observed that fund utilization for R&D head and Workshop / Seminar head is less. Department should take proactive measures in utilizing such funds from the next financial year.
9. Placement percentage is found to be less. Department should take proactive measure to make the students industry ready such that placement percentage improves.
10. Department is getting students from without science background as per the present prescribed norm by university. Faculty members flagged out difficulties in delivering the curriculum. Bridge courses may be introduced which should be taken separately such that gaps may be reduced. Delay in admission process has been flagged as one of major concern area where offering bridge course separately becomes difficult.
11. Courses are being offered through LMS CANVAS by faculty members in line with the IQAC suggestions. Form the even semester of next academic year all courses will be targeted to be offered though LMS.
12. Department does not have any MoU with industry or research organization. It is suggested if a MoU can be signed during the academic year 2024-25.

I. COURSEFILEPREPARATIONANDVERIFICATION:

Course file should include:

1. Vision & Mission of the Institute 2. Vision & Mission of the Department 3. Program Outcomes (POs) 4. Program Specific Outcomes (PSO) 5. Course Outcomes (COs) 6. Class Time Table & Faculty Time Table 7. Syllabus 8. Course handouts/Lecture schedule (include the list of additional topics to meet the outcomes, if required?) 9. Assignments/Tutorial question papers with solutions 10. Continuous evaluation papers with solutions 11. Lecture notes (Hand written/typed) 12. Consolidated attendance statement of students 13. Consolidated semester grades of students 14. Result analysis 15. Sample copies of evaluated answer scripts of Class test, assignments, tutorials, lab records(Highest, average and marginal pass). 15. Weak learner and advanced learner identification. 16. Remedial measures for weak learners

P. STUDENT PROJECT DETAILS

7thsem and 8thsem B. Tech

Name of the student	Roll No.	Project Title / Topic	Name of Supervisor	Semester	Batch (year of passing)
MD SADIQUE ZAFAR	12000720001	Reduction of make-up requirement by utilising moisture from the cooling tower exhaust.	DR. ARIJIT BANERJEE	7thsem and 8thsem	2023-24
RAMYADEEP BARMAN	12000720033				
ANIRBAN GARAI	12000721084				
ASHIS MONDAL	12000721014	Designing a lab scale vapour-compression refrigeration system	DR. ARIJIT BANERJEE	7th sem and 8th sem	2023-24
PIKU GAYEN	12000721099				
PRIYANKA LAYEK	12000721072	Reduction of greenhouse gases from power plant flue gas by CO2 capture.	DR. ARIJIT BANERJEE	7th sem and 8th sem	2023-24
DEBDYUTI BHATTACHARJEE	12000721093				
ANKIT KUMAR	12000721065	Development and fabrication of internal pipe inspection and cleaning robot	DR. CHANDAN CHATTORAJ	7th sem and 8th sem	2023-24
SANJOY DAS	12000721077				
AKSHAY MUNDA	12000721078				
ARNAB MANDAL	12000720007	Analysis and Optimization of the cutting forces through lathe tool dynamometer in turning	DR. MANOJ KUNDU	7th sem and 8th sem	2023-24
AYAN BANERJEE	12000720020	Investigate the effect of various casting parameters, such as pouring temperature, mould material, and cooling rate, on the quality and properties of cast components.	DR. MANOJ KUNDU	7th sem and 8th sem	2023-24
RAJNISH KUMAR RANJAN	12000720027				
RAJKUMAR BHARTI	12000720028				
SUKANTA GHOSH	12000721054	An Experimental Study on the Effect of MIG Welding Parameters on the Weldability of Galvenize Steel	DR. MANOJ KUNDU	7th sem and 8th sem	2023-24
NALINAKSHYA BANERJEE	12000721066				
DEBASHISH DAS	12000721076				

PIYUSH JOSHI	12000720023	Study on Design and Fabrication of 4 Wheeled Steering Mechanism	PROF. SIDDHARTHA BHOWMICK	7th sem and 8th sem	2023-24
PROSENJIT DHARA	12000720029				
PAYEL NAYAK	12000720030	Making Solar PV Street Light - A New Convention	PROF. SIDDHARTHA BHOWMICK	7th sem and 8th sem	2023-24
JEET DUTTA	12000720031				
BIKRAM AICH	12000721035	Automobile Exhaust After-Treatment System of Diesel Engine - A Technical Review	PROF. SIDDHARTHA BHOWMICK	7th sem and 8th sem	2023-24
SUMAN ROY	12000721040				
PREETAM ROY	12000721041				
AMIT KUMAR	12000720010	Visual Sensing Technologies in Robotic Welding: Recent Research Development.	PROF. SUBHAJIT BHATTACHARYA	7th sem and 8th sem	2023-24
RAHUL KUMAR	12000720009	3D printed Soft Robotic Wrist Sleeve (SWS)	PROF. SUBHAJIT BHATTACHARYA	7th sem and 8th sem	2023-24
SUCHAK. SEN	12000721047				
SAMEER SINGH	12000721051				
JITENDRA KUMAR MEHARWAL	12000721092	Voice Controlled Robotic Vehicle using smartphone	PROF. SUBHAJIT BHATTACHARYA	7th sem and 8th sem	2023-24
SK AJAHAR ALI	12000721103				
RAHUL CHAKROBORTY	12000721055	Voice controlled wheelchair for physically disabled.	PROF. SUBHAJIT BHATTACHARYA	7th sem and 8th sem	2023-24
SUBHOJIT DAS	12000721061				
BIPUL SHAW	12000721091				
ARNAB MAHATO	12000721015	Effects of process parameters of MIG welding on the quality of dissimilar joining	DR. SUBHAS CHANDRA MOI	7th sem and 8th sem	2023-24
PRIYANGSHU SARKAR	12000721042				
SUSANTA GUPTA	12000721016	Experimental Study of Distortion in Butt Welds of stainless Steel Plates	DR. SUBHAS CHANDRA MOI	7th sem and 8th sem	2023-24
DEBRAJ ALLEY	12000721045				
ARIJIT CHAKRABORTY	12000720014	Heat losses in different thermal systems	DR. PABITRA KUMAR MANDAL	7th sem and 8th sem	2023-24
SANAN RAJ	12000721048				
SADIR ALI	12000721057	Study of efficiency of thermal power plant	DR. PABITRA KUMAR MANDAL	7th sem and 8th sem	2023-24
BIKASH MUNDA	12000721058				
SUBHADEEP ROY	12000721062				
AMAN KUMAR	12000721073	development and fabrication of pedal operated cell phone charger	DR. PABITRA KUMAR MANDAL	7th sem and 8th sem	2023-24
RAHUL KUMAR	12000721090				
PRINCE KUMAR	12000720004	Turning Operation using Eco-friendly Cutting Fluid to Optimize MRR and Surface Roughness	DR. RAJEEV RANJAN	7th sem and 8th sem	2023-24
SPARSH GUPTA	12000720019				
SAYAN DHAR	12000721043	Analysis of Turning Operation of Mild Steel using different Cutting Fluids	DR. RAJEEV RANJAN & ARKA BANERJEE	7th sem and 8th sem	2023-24
SHIBAI DEY	12000721105				
SONU KUMAR	12000721104				
JOYDEEP MAZUMDAR	12000721036	Analysis of Fluid Flow and Heat	PROF. ARKA BANERJEE	7th sem and 8th sem	2023-24

TAPAS MONDAL	12000721100	Transfer in a mixing elbow using ANSYS Fluent			
AGNIBHA BANDOPADHYAY	12000721056				
MD ZISHAN AHMAD	12000721069	Flow Simulation and Shape optimization of an Airfoil design	PROF. ARKA BANERJEE	7th sem and 8th sem	2023-24
SK SAIDUL	12000721080				
BISHAL MURMU	12000721067				
SOURODEEP NANDI	12000720012	Pyrolysis of Plastic Waste for Bio-Oil Production and Fossil Fuel Substitution	PROF. DEEPAK KUMAR	7th sem and 8th sem	2023-24
ANURAG PRASAD	12000720015				
GORAV KUMAR MANDAL	12000721046	Experimental Analysis Of Spring Back In Sheet Metal Bending	PROF. DEEPAK KUMAR	7th sem and 8th sem	2023-24
VISHAL KUMAR SHUKLA	12000721050				
SUBHA SINGHA MAHAPATRA	12000721074	Arduino based CNC Ingraver	PROF. DEEPAK KUMAR	7th sem and 8th sem	2023-24

ADITYA OM	12000721089				
SRIKANTA BHATTACHARJEE	12000720022	Regenerative Braking System	DR. SUBRATA SAMANTA	7th sem and 8th sem	2023-24
DEB KIRAN DAS	12000721044				
SOURAV SHOW	12000721049				
SANDIP KARMAKAR	12000721059	Design of Solar Grass Cutter	DR. SUBRATA SAMANTA	7th sem and 8th sem	2023-24
RAHUL MANDAL	12000721075				
SUBHAM DEY	12000721082	Design of Solar PV street light	DR. SUBRATA SAMANTA	7th sem and 8th sem	2023-24
ARUP KUMAR SHEE	12000721083				
AYUSH KUMAR	12000720003	Vibration Analysys of Design of Portable CNC Router	PROF. KOUSHIK CHATTERJEE	7th sem and 8th sem	2023-24
DEEPAK KUMAR	12000721094				
ABHISHEK CHATTERJEE	12000720026	Motion Analysys of Design of Portable CNC Router	PROF. KOUSHIK CHATTERJEE	7th sem and 8th sem	2023-24
SAMBHAV KUMAR CHATTERJEE	12000720032				
VICKY KUMAR	12000721106	Design and Fabrication of Portable CNC Router	PROF. KOUSHIK CHATTERJEE	7th sem and 8th sem	2023-24
SUBRATA SINGH SARDAR	12000721107				
JOY CHATTERJEE	12000721108				
RITURAJ YADAV	12000721038	Testing of step-drill on different materials and comparison with conventional drill bits	PROF. DR. RUPALI	7th sem and 8th sem	2023-24
VICKY KUMAR MANDAL	12001320014				
ARIJIT MONDAL	12000721052	Study of Erichsen cupping test on MS, GI and Al	PROF. DR. RUPALI	7th sem and 8th sem	2023-24
NILANJAN MUKHERJEE	12000721086				
ABHAY KUMAR TIWARI	12000720002	Study of stress distribution of Non circular pressure vessel	PROF. DR. RUPALI	7th sem and 8th sem	2023-24
SOHOM DAS	12000721053				
ARDHENDU SAHA	12000721109				
MD SHAHNAWAZ HUSAIN	12000720005	Modal Analysis of Cantilever Beam	PROF. SUMAN KARMAKAR	7th sem and 8th sem	2023-24
DIBYAKANTI ROY	12000720006				

CHANDI DAS PAL	12000720016				
INDRAJIT SHEE	12000720021	Modal Analysis of Plate	PROF. SUMAN KARMAKAR	7th sem and 8th sem	2023-24
ADITYA PRATAP SINGH	12000721037				
SOURAV DASMODAK	12000721079	Stress Analysis of Cantilever Beam	PROF. SUMAN KARMAKAR	7th sem and 8th sem	2023-24
MRINAL BAGDI	12000721101				
ARNAB DAS	12000721060	Model study of Solar Bag	PROF. CHITTA SAHANA	7th sem and 8th sem	2023-24
ARVIND KUMAR SHAW	12000721063				
RONIT ROY	12000721064	A study on Desalination of water to recover Geothermal heat in an oil field	PROF. CHITTA SAHANA	7th sem and 8th sem	2023-24
VIBHASH KUMAR VERMA	12000721095				
DIPANJAN PRADHAN	12000721071				
HRITHIK ROY	12000721088	Mathematical modeling and theoretical study of Integration of CO2 power and refrigeration cycles using Geothermal energy	PROF. CHITTA SAHANA	7th sem and 8th sem	2023-24
ARUP KUMAR PRADHAN	12000721070				
INSHAL SHAKEEL	12000720008	Study and Review of Hydrogen Fuel Cell Vehicles, Current Status & Future Prospect.	PROF. RAKESH BISWAS	7th sem and 8th sem	2023-24
SHAD AHMAD	12000720017				
PUSHPAM KUMAR	12000720024				
SHYAMLAL MANDY	12000721068	Laser Based Home Security System	PROF. RAKESH BISWAS	7th sem and 8th sem	2023-24
SHASHI BHUSHAN PRIDARSHI	12000721098				
ANKIT KUMAR MANDAL	12000721085	Efficiency Improvement of Solar Panel Using Different Cooling Techniques-A Review.	PROF. RAKESH BISWAS	7th sem and 8th sem	2023-24
SAURABH KUMAR	12000721087

A. SWOT ANALYSIS:

SWOC	ANALYSIS
STRENGTH:	• Well-maintained facilities with plenty of theory and lab classes, including one smart classroom, a project lab, a departmental library, and sufficient no of computers with internet access • Qualified faculty members (highest qualification M.Tech/ME, PhD, more than 15 years of teaching experience and industry experience), with good no of publication in reputed journal, and conferences
WEAKNESS:	• Lack of sponsored project, Patent • Placement specially in core sector should be improved • Industrial visit is less • Organization of national and international Conference
OPPORTUNITIES:	• Supportive Management • Infrastructure • Conducive working environment • Lots of facilities like central library, Gym, well maintained play grounds (Basketball, Football, Cricket separately), Medical, students Hostel in Campus, Faculty enclaves etc.
Threats / Challenges:	• Global recession may hamper placement opportunities for students. Students should be prepared as per the desired criteria of different employing companies to achieve good placement • Bringing Sponsored project, patent

H. COURSEFILEPREPARATIONANDVERIFICATION:

Course file should include:

1. Vision & Mission of the Institute 2. Vision & Mission of the Department 3. Program Outcomes (POs) 4. Program Specific Outcomes (PSO) 5. Course Outcomes (COs) 6. Class Time Table & Faculty Time Table 7. Syllabus 8. Course handouts/Lecture schedule (include the list of additional topics to meet the outcomes, if required?) 9. Assignments/Tutorial question papers with solutions 10. Continuous evaluation papers with solutions 11. Lecture notes (Hand written/typed) 12. Consolidated attendance statement of students 13. Consolidated semester grades of students 14. Result analysis 15. Sample copies of evaluated answer scripts of Class test, assignments, tutorials, lab records(Highest, average and marginal pass). 15. Weak learner and advanced learner identification. 16. Remedial measures for weak learners

A. SWOTANALYSIS:

SWOC	ANALYSIS
STRENGTH:	1. The department provides excellent teaching-learning environment with the necessary infrastructures, laboratories, equipment, computers and software. The department is growing over the years by expanding its infrastructural, laboratory and research requirements progressively. 2. Dedicated and experienced faculty members with degrees from IITs, NITs and well experienced support staffs. 3. The department attracts and retains its faculty members for a longer period of time.

	4. Good percentage of faculty member with PhD degree (34% approx). 5. Students gain exposure to a wide range of real-world civil engineering projects, including road construction, national highways, and infrastructure monitoring. 6. Internships involve the use of modern software like STAAD.Pro and non-destructive testing (NDT), enhancing technical skills. 7. Student attending different conferences and technical festivals. Also, publishing conference papers.
WEAKNESS:	1. Admission of student in the first year. 2. Not all students have access to paid internships, and the quality of internship projects may vary, leading to an uneven learning experience. 3. Students' participation in the research and journal publication due to lack of post-graduate programs.
OPPORTUNITIES:	1. Opening of post-graduate programs. 2. Emphasizing new-age tools like BIM (Building Information Modeling), GIS (Geographic Information Systems), and AI-based construction analysis can enhance student learning. 3. Introducing more projects focused on renewable energy, green buildings, and sustainable construction materials can align students with industry trends.
Threats / Challenges:	1. The civil engineering job market is competitive, and students may need additional qualifications or specialization to stand out. 2. Admission of student in the first year. 3. Attracting good quality students. 4. Challenge in curriculum revision

A. SWOT ANALYSIS:

SWOC	ANALYSIS
STRENGTH:	1. Industry oriented curriculum in syllabus 2. Competent & well experienced faculty members in the Department.
WEAKNESS:	1. Newly established department in college as well as in University level. 2. The Students qualities are moderate that needs regular mentoring.
OPPORTUNITIES:	1. Students are exposed to new technologies which is beneficial in achieving their career goal. 2. Hands on experience in latest emerging fields will provide them advantage in industry.
CHALLENGES:	1. According to the curriculum set up of state-of-art new labs for the students. 2. Upgrade the student's up to the level that they will succeed in their respective domains.

A departmental meeting with all faculty and staff members will be held on 24.05.24, Friday at 3:00 P.M. at Advanced Prototype Lab. (Formerly Basic Electronics Lab) to discuss the following agenda.

Agenda

1) Confirmation of the Minutes of the last Meeting
2) Syllabus Coverage
3) Course File
4) Student Mentoring
5) M. Tech Classes
6) MOOCs verification
7) ERP profile update
8) Best Student Award
9) IIPC
10) Dept. Purchase committee
11) Any other item with permission of the chair

All the faculty and staff members of ECE department are hereby requested to attend the meeting positively before scheduled time.

Proceedings

1. **Confirmation of the minutes of the last meeting**: The minutes of the last council meeting held on 24.04.24 were readout and were accepted as confirmed.
2. **Syllabus Coverage:** The members present discussed and updated the status of syllabus coverage for the current semester students and most faculty members informed that around 70% of the syllabus has been covered till date. Notes related to the full course along with the remaining 30% of the syllabus have been shared with the students by individual subject teachers. It has also been proposed that LMS/google management systems shall be maintained by the members from the coming semester. All members affirmed by the process.
3. **Course File:** Discussion related to course file preparation are carried out and all members affirmed to prepare and update the course file as per new CO-PO-PSO mapping. All members are being request to complete the mapping process ASAP to facilitate the decorum.
4. **M. Tech classes:** The members also discussed about the conduction of M Tech classes. The chair proposed that in all circumstances like whether students are attending or not, links has to be sent to them by the faculty members and conduct the classes accordingly. It has also been proposed that physical classes can be arranged during weekends (Saturdays and Sundays). Provision for one CCL may be granted in such scenario for two working days in the weekends.
5. **MOOCs verifications:** The faculty members updated the status of MOOCs verification of dept. students in presence of the chair. It has been proposed that faculty members may consult with the MOOCs co-ordinator for any related queries or issues. All members affirmed by the process.
6. **ERP profile update:** The faculty members are also being informed to update their individual profile in the ERP module by this month. All members affirmed to put their best effort forward.
7. **Best student award:** It is being informed that the department would be conducting a program to felicitate the best student of the department from the current final year students. A list of student nominees have been prepare and distributed among the dept. faculty members. The members affirmed by the process which would act as an token of encouragement for the students of other batches.
8. **IIPC:** The members are also being informed that an IIPC committee would be formed which would evaluate the IIPC projects from July 2024. Members may voluntarily opt to participate in the committee and intimate HoD in due course. Dept. students may also be included in such committees and the committee would be finalized after the meeting with the HoD within the current even semester so that it can start operating from the next odd semester starting from July 2024. All members ratified to the proposal.
9. **Dept. purchase committee:** The faculty members are informed by the chair that the dept. purchase committee would be reconstructed which would continue its unhindered functionality from the coming semester.
10. **Any other item with permission of the chair:**

    The following discussions are also conducted in presence of the chair.

    i. It has also being informed by the chair that as per requests from the concerned depts., the following two papers namely circuit theory (4th Sem) and computer architecture (6th Sem) would be taken by the dept. faculty members.

ii. A separate committee would be formed by the dept. from July 2024 (Academic Mentoring Committee), which would monitor the smooth conduction of 2nd year and 3rd year classes and submit the report to HoD. The monitoring may be done on a weekly basis and the report would be submitted by the end of every month.

Since there were no other items to discuss at this moment, the meeting ended with vote of thanks.

Proceedings

1. **Confirmation of the Minutes of the last meeting**: The minutes of the last council meeting held on 11.07.23 were readout and were accepted as confirmed.
2. **NBA SAR documentation**: The members discussed about the latest progress of the preparation from several committees as formed related to NBA accreditation. Committee members from every section are being informed to prepare their allocated reports along with arrangement of necessary documents. The department would evaluate the final reports of every section with all documents within this month before the possible meeting with the principal. The members affirmed to act regarding this and expressed their full cooperation in this regard.
3. **Mentoring**: The chair sought information regarding the mentoring activities conducted by the dept. faculty members and expressed his satisfaction with the ongoing process. The faculty members confirmed to act continuously for the same maintaining proper record for continuous development.
4. **Attendance report:** It is also being discussed that the attendance report for the month of July 2023 (for 3rd semester and 5th semester students) has to be kept ready by 31st of July. The report would be submitted to HoD, ECE who would in terms forward the same to the principal's office.
5. **Admission duty:** The members also discussed about proper conduction of ongoing admission of 1st semester UG and PG students. Dedicated members from the department are allotted to facilitate the process. Mr. Sukanta Mukherjee, Prof. Tapas Roy and Prof. Surajit Batabyal are assigned to take over the responsibility with immediate effect.
6. **Mini Project allocation:** The project committee informed the members that the process of allocation of 6th semester mini project and 8th semester final year project would remain unchanged. The students would connect with any professor in the department and express their interest with application. This application with the consent of respective professor would be submitted to the dept. project committee in the link provided by them. The committee would then formalize the matter with necessary notification as and when required. All members affirmed by the process.
7. **Departmental activity plan finalization:** The members are being informed that the departmental activities such as seminars/workshops etc. for the current academic session would be prepared by Dr. Rajib Banerjee by 27.07.23 for finalization from the HoD, ECE office.
8. **Any other item with permission of the chair:**
   Since there were no other matters to discuss, the meeting ended with a vote of thanks to the chair.

A DAC meeting was held on 11/07/2023 at 04:00 P.M at Xilinx Lab, ECE department to discuss:

- Action Taken Report based on Feedback on Academics. Feedback on facilities and Course End Feedback taken for the Academic Year 2022-2023. The feedback was submitted to college feedback portal by 176 students of Electronics and Communications Engineering department.
- Approval of following Add-on courses for the students of ECE department
  1. CRYPTOGRAPHY AND NETWORK SECURITY by Dr. Sarit Pal for 7th sem ECE department's students.
  2. Fault Detection and Calibration of Electronics Equipments. by Prof. Debipriya Dutta & Prof. Soumendra Pain for 5th sem ECE department's students

1. Action Taken Report based on feedback

Academics Feedback

Final Year Students

- The majority of students agreed (73.33%) that they have acquired new technical or scientific knowledge, with 21.67% strongly agreeing.
- The subjects studied were found to be relevant to current industry needs by most students (86.67% agree or strongly agree).
- The highest level of satisfaction was noted in the area of mentorship and counselling process with 43.33% strongly agreeing and 55% agreeing.
- Communication skills improvement was another highly rated area, with 51.67% strongly agreeing and 41.67% agreeing.
- The pedagogical methods used by the teachers were deemed effective and interesting by 95% of the students (agree or strongly agree).
- There seems to be adequate opportunities for co-curricular and extracurricular activities, with 96.67% of students agreeing or strongly agreeing.

First Year Students

- While the feedback is generally positive, there are areas where improvement can be made. For example, 14.29% of students disagreed that they were able to apply the knowledge and skills they gained in real life problem solving.
- 22.86% of students were not sure if the subjects they studied were relevant to the current industry need.
- The feedback on the mentorship and counselling process was relatively positive, with 85.71% of students agreeing or strongly agreeing that it was good.
- Students' feedback on improving communication skills was highly positive, with 91.43% of students agreeing or strongly agreeing.

Second Year Students

- Only one student participated in the survey, providing only positive feedback. This feedback might not be representative of the overall student experience.

Third Year Students

- The feedback from third year students is generally positive, with majority of students agreeing that they have acquired new technical or scientific knowledge and that the subjects they studied were relevant to the current industry need.
- The highest level of satisfaction was noted in the area of mentorship and counselling process with 24.44% strongly agreeing and 64.44% agreeing.
- Areas where improvement can be made include the pedagogical methods used by the teachers and the opportunities for co-curricular and extracurricular activities.

Facilities Feedback

Final Year Students

- The highest rated facility was the laboratory, with 67.67% of students rating it as excellent or very good.
- The internet facility had the lowest rating, with 18.33% of students rating it as poor.

First Year Students

- The library was rated the highest by the first-year students, with 62.86% rating it as excellent or very good.
- The lowest rated facility was the internet, with 35.71% of students rating it as poor.

Second Year Students

- The second year student rated all facilities as excellent.

Third Year Students

- The facilities with the highest ratings were the laboratory, library and water facility, with over 60% rating them as excellent or very good.
- The internet facility had the lowest rating, with 26.67% of students rating it as poor.

In summary, while the feedback is generally positive across all years, areas of improvement include the relevance of the subjects to the current industry need, the pedagogical methods used by the teachers, the opportunities for co-curricular and extracurricular activities, and the internet facility.

The year wise breakup of responders:

Year	Participant Count
1st	70
2nd	1
3rd	45
4th	60

The participant count accounts for nearly 86% of the total strength combined.

Action Taken Report based on Feedback on Academics for the AY 2022-23

A majority of students across all years have agreed or strongly agreed that they have acquired new technical or scientific knowledge, indicating that our teaching methods have continued to be effective in conveying complex scientific and technical concepts. This is a positive sign that the teaching methods are being well-received by the students. However, there is still room for improvement to help the small proportion of students who disagreed or were not sure about the acquisition of new knowledge.

Our mentorship and counselling process continues to receive high praise from students, with high agreement across all years, indicating that the unified mentoring framework remains effective. It has undoubtedly had a positive long-term impact on students' academic performance and overall development.

The areas of concern identified based on feedback from students are mainly related to the ability to apply the knowledge and skills gained in real-life problem solving, the relevance of the subjects to the current industry need, the adequacy of modern tools in the laboratories, and the opportunities for co-curricular and extracurricular activities.

The feedback received from students across different years provided crucial insights into the teaching and learning environment of our institution. While a majority of the students agreed or strongly agreed that they have acquired new technical or scientific knowledge, there is still a need to further refine our strategies for a more holistic educational experience.

Head
Dept. Electronics & Comm. Engg.
Dr. B. C. Roy Engineering College
Durgapur

Our unified mentoring framework has continued to show effectiveness, demonstrating the long-term positive impact on students' academic performance and overall development. However, there are areas where we can enhance our approach to better serve our students.

Identified areas of concern (with > 3% disagreement):

- Ability to identify, formulate, research literature, and analyze complex engineering problems reaching substantiated (**3.3%** disagreement)
- Draw conclusions using first principles of mathematics, natural sciences, and engineering sciences (**3.3%** disagreement)
- Ability to apply research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions (**5.6%** disagreement)
- developed the ability to create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations (**4.4%** disagreement)

Actions taken/suggested:

- **Real-world problem-solving skills**: Our curricula will incorporate more real-world case studies and practical examples. This will allow students to better understand how theoretical concepts can be applied to solve actual problems. Additionally, through our Advanced Prototyping Lab, students will have the opportunity to work on projects that go beyond the regular curriculum, encouraging innovative thinking and practical problem-solving.

- **Relevance to industry needs**: We will maintain our close engagement with industry professionals and continuously update our curriculum based on their feedback. This ensures that our students acquire the most relevant and up-to-date skills needed in the industry. Our Xilinx Lab for FPGA and Texas Instruments Innovation Lab are prime examples of our commitment to providing industry-relevant exposure to our students.

- **Modern tools in laboratories**: A comprehensive review of the tools and equipment in our laboratories will be conducted. Necessary upgrades will be implemented to ensure that our students have access to the most modern and advanced tools, enhancing their learning experience. Labs like the Xilinx Lab for FPGA and Texas Instruments Innovation Lab provide students with access to state-of-the-art equipment and software, keeping them at the forefront of technological advancements.

- **Co-curricular and extracurricular activities**: We will increase the diversity of co-curricular and extracurricular activities available to students. This will offer more avenues for students to explore their interests, hone their skills, and develop a well-rounded personality.

- **Emphasis on Research and Research methodology**: To bridge the gap between academic knowledge and practical implementation, we will intensify our focus on research methodologies in each course. This will expose students to the process of scientific inquiry and foster a culture of research and innovation.

- **Coding and Code Repositories**: We will organize additional sessions on coding and maintenance of code repositories. This will enable students to stay updated with the latest technologies and best practices in software development. We believe that strengthening coding skills will enhance students' problem-solving capabilities and prepare them for diverse roles in the tech industry.

Through these strategic actions, we are confident that we will address the areas of concern raised by students and further enhance the quality of our teaching and learning environment. Our commitment is to provide a comprehensive and industry-relevant education that prepares our students for success in their future careers.

Action Taken Report based on Feedback on Facilities for the AY 2022-23

The feedback received from students across different years provides a clear understanding of the existing facilities and the areas that require improvement. We acknowledge that some of the facilities such as the hostel, canteen, and internet are managed by the Central Authority, yet they significantly impact the overall student experience.

Identified areas of concern (with > 3% disagreement):

- Hostel facility (**11.96%** disagreement)
- Sports facility (**5.63%** disagreement)
- Water facility (**3.52%** disagreement)
- Cleanliness and Hygiene (**5.63%** disagreement)
- Canteen facility (**11.97%** disagreement)
- Internet facility (**17.61%** disagreement)

Actions taken/suggested:

- Internet facilities has been upgraded with 1GBPS Switches in department.
- Wi-Fi is upgraded to dual band with 5.2GhZ high speed (1Gbps) routers.
- Password of all routers has been provided to students.
- Wi-Fi routers are placed at optimized locations for better coverage.

Actions taken/suggested based on feedback:

- **Laboratory Facility**: The existing labs such as the Xilinx Lab for FPGA and Texas Instruments Innovation Lab have received positive feedback. However, we will continue to strive for excellence by integrating more advanced equipment and tools, as well as by considering the introduction of new labs that align with the evolving needs of the industry and curriculum.

- **Library Facility**: We will continue to enhance the library resources, both offline and online, to cater to the diverse academic interests of our students. Accessibility and a wider range of resources will be our primary focus.

- **Hostel Facility**: Although the hostel facility is under the jurisdiction of the Central Authority, the department will actively collaborate with them to improve the living conditions based on the feedback received. We will facilitate communication between the students and the Central Authority to address specific issues.

- **Internet Facility**: The department acknowledges the critical role of reliable internet services in academic and personal life. While the internet facility is managed by the Central Authority, the department will advocate for an upgrade in internet infrastructure to ensure stable and high-speed internet connectivity across the campus.

- **Sports Facility**: We will continue to maintain and enhance the sports infrastructure and encourage students to participate in physical activities for their overall well-being.

- **Water Facility, Cleanliness, and Hygiene**: These facilities, managed directly by the department, have received positive feedback. We will continue to maintain high standards in these areas.

- **Canteen Facility**: Although the canteen facility is managed by the Central Authority, the department recognizes its importance in the day-to-day life of students. We will represent the students' feedback to

the Central Authority and suggest improvements in the quality and variety of food offered.

By addressing these areas, we aim to create a better learning environment for our students. It is crucial to note that while some facilities are not under the direct purview of the department, we are committed to working with the relevant authorities to ensure that all student needs are met. We thank the students for their valuable input and assure them of our continued efforts to enhance their experience at our institution.

Up gradation of Hostel, Canteen and Food facilities are suggested and the same is forwarded to central authorities.

Departmental UG students have access to sports equipment and gym facilities at prescribed timings, as was reported Sports Committee. No Action is required thereof regarding this issue, as is decided in the meeting.

Action Taken Report based on Course End Feedback (Exit Survey) on Facilities for the AY 2021-22

The exit survey of the Electronics & Communication Engineering program for the 2023 pass out batch was participated in by 24 students. The responses indicate an overall positive learning experience and program outcome.

The majority of the students (63.19%) agreed that they have developed capabilities in various aspects of engineering such as applying knowledge of mathematics, science, engineering fundamentals, and engineering specialization for the solution of complex engineering problems. A significant number of students (35.76%) strongly agreed with this.

Furthermore, a total of 98.96% of the respondents either agreed or strongly agreed that they are able to identify, formulate, research literature, and analyze complex engineering problems. They believe they have reached substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

The students also showed a high degree of confidence in their abilities to design solutions for complex engineering problems and design system components or processes that meet specified needs. This includes considerations for public health and safety, and cultural, societal, and environmental considerations.

The respondents unanimously agreed (100%) that they have developed the ability to create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

On the ethical front, the students expressed a strong commitment to applying ethical principles and adhering to professional ethics and responsibilities and norms of the engineering practice. They also showed understanding of the impact of professional engineering solutions in societal and environmental contexts, and the need for sustainable development.

In terms of communication skills, the students felt confident about their abilities to communicate effectively on complex engineering activities with the engineering community and with the society at large. This includes comprehension and writing effective reports and design documentation, making effective presentations, and giving and receiving clear instructions.

In terms of lifelong learning, the students strongly agreed that they recognize the need for, and have the preparation and ability to engage in independent and lifelong learning in the broadest context of technological change.

Overall, the exit survey results reflect positively on the Electronics & Communication Engineering program's ability to prepare students for their future careers and lifelong learning.

Identified areas of concern (with > 3% disagreement):

- "Are you able to identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences?" had a disagreement rate of 4.17%.

This suggests that some students may have struggled with these aspects of the program. This could be due to a variety of reasons such as difficulty of the material, pace of the class, teaching methods, or personal circumstances. Further investigation may be needed to determine the root cause and find potential solutions. However, since this is just one aspect and the disagreement rate is low, it might not be a major concern. It's also worth noting that the overall feedback for the program is extremely positive.

Actions taken/suggested:

- To address concerns about applying the knowledge of mathematics, science, and engineering to complex engineering problems, we have incorporated additional workshops and seminars focusing on practical applications. These sessions, led by industry experts, are designed to bridge the gap between theoretical knowledge and its practical application.

- In response to feedback about the need for more hands-on experience, we have expanded the scope of our laboratories. The Xilinx Lab for FPGA and the Texas Instruments Innovation Lab have been equipped with the latest tools and technologies to provide students with hands-on experience beyond the curriculum. In addition, our Advanced Prototyping Lab has been set up to encourage innovation and exploration outside of the regular coursework.

- To address the need for improved research skills and methods, we have introduced a research methodology module in the curriculum. This includes sessions on how to conduct literature surveys, design experiments, analyze data, and present findings in a coherent and logical manner.

- Recognizing the importance of communication skills in professional settings, we have introduced a comprehensive soft skills training program. This program includes components such as report writing, presentation skills, team collaboration, and leadership training.

- To address the concern related to ethical principles and professional responsibilities, we have integrated a module on engineering ethics into our curriculum. This module emphasizes the importance of professional ethics, legal considerations, and societal responsibilities in engineering practice.

- To ensure our students are prepared for lifelong learning, we have introduced a series of workshops on the latest developments in technology and engineering. These workshops are designed to instill a habit of continuous learning and adaptation in the face of rapid technological advancements.

- We continue to incentivize student participation in external competitions and events, both financially and with equipment. Our past efforts have resulted in students achieving top positions in competitions held across India.

- To ensure our students are industry-ready, we have increased our focus on coding and AI training sessions. We have found that the inclusion of GitHub and coding projects in our curriculum has significantly improved our students' overall skills, as reflected in the positive results of campus placements.

- Finally, to facilitate the transition from academia to the industry, we have introduced Test-Based Training as part of our Placement Guidance. These sessions, organized for final-year students appearing for campus interviews, have proven to be very effective in preparing our students for the job market.

While we are pleased with the overall positive feedback, we are committed to continuous improvement and will continue to take steps to enhance the learning experience of our students.

2. Add-on Courses:

Two add-on courses are offered from ECE department for the current ongoing odd semester'2023. One course is for ECE 5th semester students while the other is for ECE 7th sem students. The syllabuses of both the courses are ready and the DAC members approved the syllabus. Weekly 2 classes for both the courses are included in the routine. The modalities of assessment process, certificate with grade & lesson plan are also discussed and DAC members approved the mentioned items.

All members are unanimously decided to send all related documents to IQAC, BCREC for the acceptance of the above two discussed agendas.

Proceedings

1. **Confirmation of the Minutes of the last meeting**: The minutes of the last council meeting held on 28.08.23 were readout and were accepted as confirmed.

2. **Subject Distribution for Even Semester 2023-24:** The subject distribution of the coming even semester 2023-24 are being conducted based on the choices put forward by individual faculty members to the Dept. routine committee. The details of the subject distribution may be obtained as with the attached document.

3. **Learning Management System-Canvas:** The members are being informed about the Learning Management System (LMS)-CANVAS portal and requested to log-in and prepare their teaching documents and share with the students through this portal. The members put their consent in this regard and affirmed to act on it starting from even semester 2023-24.

4. **Course file and lesson file preparation:** The members are also being informed to act on preparation of course files and lesson plans of individual subject as per allocation for the upcoming even semester 2023-24. All members affirmed by the process.

5. **Add-on courses:** The faculty members are being informed to propose any add-on courses that they may feel suitable and relevant to the undergraduate B. Tech ECE courses. Proposals for such courses shall be submitted to the chair along with syllabus and course plans.

6. **Any other item with permission of the chair:**

The following discussions are also conducted in presence of the chair.

i. It is being informed to the faculty and staff that during 14th & 15th Dec, 2023, a program would be organized at Albert Einstein Hall between 10.30AM-5.30PM to discuss about the possible ways to uplift overall quality of education of the institute. This includes improvement in teaching quality and pedagogy, improving student attendance, animated video lectures, providing guidance to students for better placements, arranging FDPs and conducting better researches. In addition to this, it is being proposed that during 9th & 10th January, 2024, the faculty members looking to submit project proposals have to present their proposals in front of principals and vice principals of the BCREC group of institutions.

ii. It is being informed to the faculty members that Final year project marks allotted by the respective supervisor, if it is more than 40 (out of 50) but without any publication, have to be allotted with proper justification to the project committee in presence of the chair.

iii. It is also being proposed that a document record containing problems faced by dept. project supervisors during undertaking and carrying out of B. Tech & M. Tech projects and would be kept with HoD, ECE.

P.T.O.

iv. In addition to this final year students would be informed to submit project assessment report duly authentica signed by respective supervisors on every fortnight basis to ensure continuous progress. Also final year students wou informed to present their project in between the final semester as per notification generated by the dept.

v. The chair also requested the members to voluntarily submit their names as a dept. representative for soft skill development program conducted by the institute, in case the need be.

Since there were no other items to discuss at this moment, the meeting ended with vote of thanks.

The Action Taken Report (ATR) for the academic year **2023-24 (ODD)** highlights the efforts undertaken by the ECE Department to address the key findings from the student feedback. Through targeted actions, such as the enhancement of extracurricular opportunities, improved mentorship programs, and the integration of real-world applications into the curriculum, significant progress has been made in addressing student concerns and fostering an enriched learning environment. These initiatives reflect the department's commitment to continuous improvement and holistic development.

To ensure sustained progress, further recommendations have been proposed, focusing on infrastructure upgrades, stronger industry connections, and consistent feedback mechanisms. The department remains dedicated to implementing these measures, strengthening the academic experience, and supporting student aspirations.

Report of the Special DAC Meeting
Held on: **05-03-2024**
Venue: **Advanced Prototype Lab**

The Department Advisory Committee (DAC) convened to discuss the student feedback for the academic year 2023-24 and the subsequent action taken to address identified areas for improvement. The meeting concluded with the unanimous approval of the ATR and the proposed recommendations for sustained development.

Course-End Feedback Analysis and Action Taken Report (ATR)

Odd Semester 2023-24

Overview

The Course-End Feedback was analyzed for all semesters in the Electronics and Communication Engineering (ECE) Department for the academic year 2023-24. The feedback collected focuses on the teaching-learning process, syllabus coverage, evaluation, and faculty engagement. This ATR addresses the observations, highlights strengths, identifies areas needing improvement, and details actions taken.

Key Feedback Summary

Strengths

Head
Dept. Electronics & Comm. Engg.
Dr. B. C. Roy Engineering College
Durgapur

1. **Syllabus Coverage**
    - **Observation**: Across semesters, 85% of students rated syllabus coverage as "85-100%," showcasing the department's commitment to comprehensive course delivery.
2. **Teaching Approach**
    - **Observation**: Over 80% of students rated the faculty's teaching approach as "Excellent" or "Very Good."
3. **Engagement and Communication**
    - **Observation**: Around 78% of students acknowledged consistent discussions on their performance and strengths, highlighting effective student-faculty interaction.
4. **Overall Learning Process**
    - **Observation**: Feedback indicated that 75% of students found the teaching-learning process very good or excellent.

Areas Needing Improvement

1. **Fairness in Evaluation**
    - **Observation**: While 80% found evaluations fair, some responses indicated inconsistencies in communication regarding evaluation criteria.
2. **Illustration of Concepts with Examples**
    - **Observation**: About 70% of students rated this parameter positively, but some highlighted the need for better application-oriented teaching.
3. **Encouragement for Extracurricular Activities**
    - **Observation**: Although 65% of students felt encouraged to participate, first-year students expressed a need for more structured extracurricular involvement.

Actions Taken

1. **Enhanced Teaching-Learning Methods**
    - Introduced case studies and practical examples in lectures to improve concept illustration.
    - Integrated tools like MATLAB and Simulink for real-world simulations, particularly in higher semesters.
2. **Streamlined Evaluation Processes**
    - Faculty were trained to communicate evaluation criteria more clearly and consistently during assignments and exams.

Head
Dept. Electronics & Comm. Engg.
Dr. B. C. Roy Engineering College
Durgapur

- Developed rubrics for grading, ensuring transparency and fairness.

3. **Increased Extracurricular Opportunities**
   - Expanded the use of the **Xilinx Lab** and **Advanced Prototyping Lab** for project-based extracurricular activities.
   - Hosted regular hackathons, quizzes, and technical competitions to engage students beyond academics.
4. **Regular Performance Discussions**
   - Mandated bi-semester feedback sessions between faculty and students to discuss strengths and areas for improvement.
   - Established mentorship groups for personalized guidance on academic and extracurricular growth.

Semester-Specific Highlights

First Semester

- **Key Challenge**: Students indicated uncertainty about the real-life applicability of their knowledge.
- **Action**: Introduced open lab sessions for hands-on exposure to concepts covered in foundational courses like Basic Electrical Engineering and Engineering Drawing.

Third Semester

- **Key Challenge**: Students requested better integration of modern tools in practical sessions.
- **Action**: Updated lab experiments to include emerging technologies like IoT and embedded systems, utilizing modern equipment.

Fifth Semester

- **Key Challenge**: Some students felt the need for stronger connections between course content and industry requirements.
- **Action**: Collaborated with industry experts to design guest lectures and workshops focusing on industry-relevant skills.

Seventh Semester

- **Key Challenge**: Limited time for discussions on project-based activities due to a packed curriculum.
- **Action**: Dedicated weekly mentoring hours for final-year projects to ensure focused guidance.

Recommendations

1. **Enhanced Mentorship**
    - Strengthen mentorship programs with specific objectives for academic and career development.
2. **Integration of Industry Needs**
    - Expand partnerships with industries for curriculum alignment and internships.
3. **Interactive Teaching**
    - Broaden the use of interactive tools, such as AR/VR and simulation platforms, to enhance understanding of complex concepts.
4. **Feedback Mechanism**
    - Conduct mid-semester feedback surveys to address concerns more proactively.

Semester-End Feedback Action Taken Report (ATR)

Odd Semester 2023-24

Overview

This ATR addresses the key findings from the semester-end feedback for the Electronics and Communication Engineering (ECE) Department for the academic year 2023-24. It highlights strengths, identifies challenges, and outlines actions implemented to enhance the learning environment and facilities.

Key Feedback Summary

Academics

1. **Knowledge Acquisition**
    - **Observation**: 78% of students agreed they acquired new technical and scientific knowledge.
    - **Challenge**: 12% expressed uncertainty about the applicability of this knowledge, indicating a need for stronger practical integration.
2. **Mentorship and Counselling**
    - **Observation**: 80% of students positively rated mentorship efforts, but inconsistencies in second-year groups were noted.
3. **Pedagogy and Communication Skills**

Head
Dept. Electronics & Comm. Engg.
Dr. B. C. Roy Engineering College
Durgapur

- **Observation**: 85% found the pedagogy effective, and 82% indicated improvements in communication skills. However, a small portion (8%) highlighted the need for more interactive teaching methods.

Facilities

1. **Laboratories and Libraries**
   - **Observation**: Over 65% of students rated these as Excellent or Very Good, but some dissatisfaction was noted due to equipment availability and access hours.
2. **Hostel Amenities and Hygiene**
   - **Observation**: Hostel facilities received mixed ratings, with 13% marking them as Poor and 20% rating cleanliness below Good.
3. **Internet Access**
   - **Observation**: Internet services consistently received the lowest ratings, with 15% marking them as Poor.

Actions Taken

Academics

1. **Enhanced Practical Learning**
   - Introduced additional lab-based mini-projects in the **Xilinx Lab** and **Advanced Prototyping Lab** to reinforce theoretical concepts with hands-on activities.
   - Developed new case studies and real-life problem-solving sessions to strengthen knowledge applicability.
2. **Structured Mentorship Programs**
   - Established smaller mentorship groups to ensure focused academic and career guidance.
   - Assigned senior faculty to supervise and address gaps in mentorship quality for specific batches.
3. **Interactive Teaching Innovations**
   - Conducted workshops for faculty on flipped classrooms and simulation-based teaching to encourage interactive learning.
   - Increased the use of visual aids and live examples in lectures to enhance engagement.

Facilities

1. **Laboratory and Library Upgrades**
   - Procured additional equipment to address availability issues in core labs.

Head
Dept. Electronics & Comm. Engg.
Dr. B. C. Roy Engineering College
Durgapur

- Extended library operating hours and added digital access to journals and e-books for enhanced resource accessibility.

2. **Internet Services**
   - Upgraded internet infrastructure with high-speed routers and increased bandwidth in hostels and academic buildings.
   - Introduced an IT helpdesk to address connectivity issues promptly.

Recommendations

1. **Continued Monitoring of Improvements**
   - Conduct mid-semester surveys to gauge the effectiveness of the implemented actions and address emerging issues.
2. **Increased Industry Integration**
   - Expand partnerships with local industries to organize hands-on workshops, internships, and expert lectures.
3. **Digital Transformation**
   - Implement advanced e-learning platforms to complement classroom teaching and provide continuous access to learning resources.
4. **Extracurricular Engagement**
   - Organize regular hackathons, coding challenges, and cultural events to foster holistic student development.

Comparative Action Taken Report (ATR)

Odd Semester 2023-24

This report presents a detailed comparative analysis of the semester-end feedback for Academics and Facilities, outlining observations and corresponding actions taken to address them.

Academics Comparative Analysis and Actions

Category	Observation	Action Taken
Knowledge Acquisition	78% of students agreed they acquired new technical knowledge, while 12% were uncertain.	Introduced lab-based projects in core subjects to reinforce theoretical concepts with hands-on learning.
Real-Life Problem	76% agreed they could apply	Enhanced problem-based learning

Industry Relevance	80% agreed that subjects studied were industry-relevant; 20% suggested the need for updated content.	Updated course curriculum to include recent technological advancements such as IoT and AI.
Mentorship and Counselling	80% rated mentorship positively; inconsistencies noted in second-year groups.	Assigned faculty mentors to smaller groups for personalized guidance and regular check-ins to monitor progress.
Overall Learning Environment	82% found the learning environment positive, but engagement in foundational courses was lacking.	Integrated interactive tools like AR/VR for engaging lectures in foundational courses.
Communication Skills Improvement	85% noted improvement; first-year students needed more opportunities to practice communication skills.	Conducted communication workshops and debates for first-year students to build confidence and presentation skills.
Teachers' Knowledge Demonstration	85% positively rated teachers' subject knowledge; minor gaps in examples and illustrations were observed.	Conducted faculty training workshops to enhance the use of real-life examples and illustrations in lectures.
Pedagogy and Effectiveness	85% rated pedagogy as effective; interactive teaching was requested by 15%.	Introduced flipped classroom models and simulation-based learning platforms to increase interactivity.

Facilities Comparative Analysis and Actions

Category	Observation	Action Taken
Classroom Facilities	67% rated classroom facilities as Very Good or Excellent; 6% reported infrastructure issues.	Improved classroom infrastructure by adding ergonomic furniture and upgrading projection systems.
Laboratory Facilities	69% rated labs positively; 5% noted equipment inadequacies.	Procured additional lab equipment and extended lab access hours to accommodate student schedules.
Library Facilities	70% rated library facilities highly; some requests for extended hours were noted.	Increased library operating hours and added e-resources, including subscriptions to journals and digital books.
Hostel Facilities	30% rated hostels Poor or Good, citing issues with hygiene and	Advised authorities for launching hostel refurbishment initiatives, improved cleaning frequency, and added water purifiers and better

	room conditions.	recreational facilities.
Cleanliness and Hygiene	20% rated cleanliness Poor or Good, highlighting hostels and common areas as needing attention.	Increased cleaning staff, introduced weekly cleaning audits, and installed waste segregation bins to improve hygiene.
Canteen Facilities	15% rated the canteen Poor, citing food quality concerns.	Advised caterers to improve food quality and hygiene; introduced menu options based on student feedback.
Internet Facilities	20% rated internet access Poor, especially in hostels.	Upgraded internet infrastructure with high-speed routers and expanded bandwidth; introduced an IT helpdesk to resolve connectivity issues promptly.

The comparative analysis underscores the department's strengths in academic delivery and highlights actionable areas for facilities improvement. Proactive measures taken to address feedback aim to enhance student satisfaction and align with modern academic and infrastructural standards. Regular monitoring and iterative improvements will ensure sustained progress.

Course-End Feedback Analysis and Action Taken Report for ECE Department

Overview

This report analyzes the student feedback collected at the end of the academic year 2023-24 to evaluate the teaching-learning processes and extracurricular support in the ECE Department. The report incorporates specific actions already undertaken to address feedback and proposes further steps to improve the overall academic and student experience.

Key Findings

1.Overall Performance

The overall average feedback rating is **3.61** out of 4, signifying a strong academic foundation with some areas requiring attention.

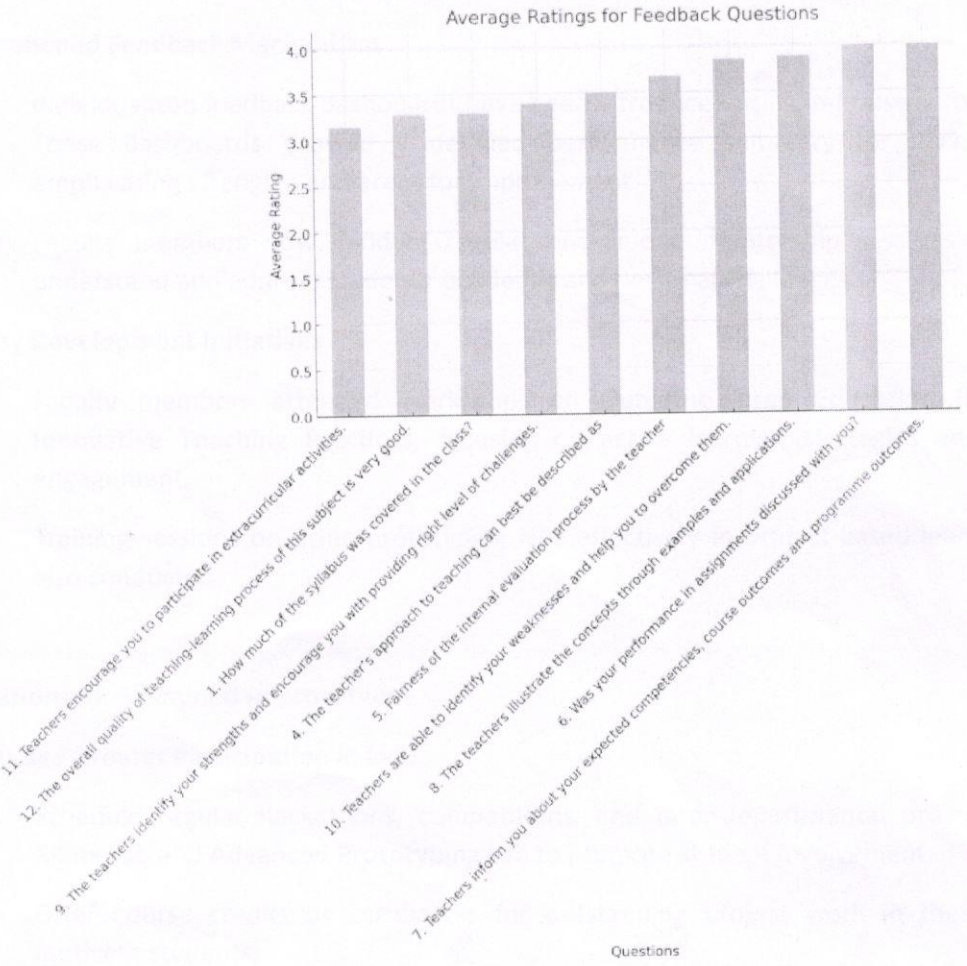

Head
Dept. Electronics & Comm. Engg.
Dr. B. C. Roy Engineering College
Durgapur

2. Strengths

- **Performance Feedback:** Students highly appreciated (average: 4.0) discussions on assignment performance, reflecting robust student-teacher engagement.
- **Structured Syllabus Delivery:** Syllabus coverage (average: 3.9) and teaching approach (average: 3.85) were commended, indicating a well-planned curriculum delivery.

3. Areas Needing Improvement

- **Extracurricular Activities Engagement:** The lowest-rated parameter (average: 3.0) indicates a need for increased focus on encouraging students to participate in extracurricular and co-curricular activities.
- **Application-Oriented Teaching:** While relatively well-rated (average: 3.6), feedback suggests enhancing the use of real-life examples and practical applications during lectures.

Actions Taken

1. **Enhanced Use of Labs for Extracurricular Activities**

Head
Dept. Electronics & Comm. Engg.
Dr. B. C. Roy Engineering College
Durgapur

- The **Xilinx Lab** has been opened for extracurricular project work beyond class hours, enabling students to work on FPGA-based design projects and industry-relevant problem-solving activities.
- The **Advanced Prototyping Lab** has been designated as a hub for co-curricular activities, allowing students to experiment with advanced prototyping tools for IoT, robotics, and hardware-software co-design.
- Faculty mentors have been assigned to guide students on lab-based extracurricular projects.

2. **Introduction of Real-Life Application Focus in Curriculum**
   - Real-world case studies and industry-standard tools (e.g., MATLAB, Simulink, Xilinx Vivado) have been integrated into lectures and practical sessions.
   - Guest lectures and workshops from industry professionals were organized to bridge the gap between theory and practice.
3. **Strengthened Feedback Mechanisms**
   - Individualized feedback dashboards have been introduced using in-house software tools. These dashboards provide a detailed performance summary for each student, emphasizing strengths and areas for improvement.
   - Faculty members now conduct regular one-on-one mentorship sessions to better understand and address students' academic and personal challenges.
4. **Faculty Development Initiatives**
   - Faculty members attended workshops on **Outcome-Based Education (OBE)** and **Innovative Teaching Practices**, focusing on active learning strategies and student engagement.
   - Training sessions on using prototyping labs effectively in project-based learning were also conducted.

Recommendations for Sustained Improvement

1. **Encourage Greater Participation in Labs**
   - Schedule regular hackathons, competitions, and inter-departmental projects in the **Xilinx Lab** and **Advanced Prototyping Lab** to promote student involvement.
   - Offer course credits or certificates for outstanding project work in these labs to motivate students.
2. **Expand Real-World Integration in Curriculum**

Head
Dept. Electronics & Comm. Engg.
Dr. B. C. Roy Engineering College
Durgapur

- Collaborate with industry to introduce mini-projects based on current technological challenges in areas such as IoT, machine learning, and embedded systems.
- Organize semester-end exhibitions for students to showcase their projects developed in labs.

3. **Focus on Holistic Development**
   - Develop structured extracurricular programs that combine technical and soft skills (e.g., leadership workshops, technical writing sessions).
   - Actively encourage faculty to participate in cultural and technical extracurricular events as mentors to create a well-rounded learning environment.
4. **Continuous Feedback Analysis**
   - Conduct mid-semester feedback surveys to assess the impact of implemented changes.
   - Establish a feedback review committee comprising faculty and students to ensure action plans align with student expectations.

Impact of Actions Taken

The integration of the **Xilinx Lab** and **Advanced Prototyping Lab** as extracurricular and co-curricular spaces has significantly improved accessibility for hands-on learning. Students have reported increased interest in participating in lab-based activities and a noticeable improvement in their understanding of practical concepts. Guest lectures and real-life applications in teaching have been particularly well-received, fostering a deeper appreciation of course material.

Semester-End Feedback Report for ECE Department

Overview

This report consolidates the semester-end feedback collected across all years (First to Fourth) in the ECE Department for the academic year 2023-24. The feedback covers two main aspects: academic experience and facilities. The responses highlight program strengths and areas for improvement, accompanied by specific actions to enhance the student learning experience.

Feedback Analysis by Year

First Year (97 Students) (analysis-ece_first)

- **Academics**:
  - New knowledge acquisition: 79.38% agreement (Strongly Agree/Agree).
  - Real-life application of knowledge: 76.29% agreement.
  - Learning environment: 82.47% agreement.
- **Facilities**:
  - Lab and library facilities were rated highly (Excellent/Very Good: ~58%).
  - Internet facilities showed dissatisfaction, with 28.87% rating it as Poor.
  - Hygiene and cleanliness scored lower than expected, with 19.59% rating it as Poor.

Second Year (26 Students) (analysis-ece_second)

- **Academics**:
  - New knowledge acquisition: 92.31% agreement.
  - Industry relevance: 84.61% agreement.
  - Mentorship and counselling: 80.77% agreement.
- **Facilities**:
  - Lab and library facilities received mixed reviews, with around 42.31% rating them as Good.
  - Internet access showed issues, with 19.23% rating it Poor.
  - Canteen facilities saw 50% Good ratings, indicating room for improvement.

Third Year (95 Students) (analysis-ece_third)

Head
Dept. Electronics & Comm. Engg.
Dr. B. C. Roy Engineering College
Durgapur

- **Academics**:
    - Strong agreement on technical knowledge acquisition (53.51%) and real-life application (52.63%).
    - Teacher pedagogy: 90.52% agreement (Effective/Interesting).
    - Learning environment: 93.69% agreement.
- **Facilities**:
    - Laboratory facilities: 76.84% Excellent/Very Good.
    - Cleanliness and hygiene scored well (72.63% Excellent/Very Good).
    - Internet dissatisfaction remained notable, with 15.79% rating it as Poor.

Fourth Year (127 Students) (analysis-ece_fourth)

- **Academics**:
    - Strong agreement on mentorship and counselling (94.49%).
    - Real-life application: 92.91% agreement.
    - Communication skills improvement: 92.13% agreement.
- **Facilities**:
    - Laboratory and library facilities scored well, with ~67.71% Excellent/Very Good.
    - Canteen dissatisfaction was evident, with 10.24% rating it Poor.

Key Observations

1. **Academics**:
    - Strong agreement on technical knowledge acquisition and real-life application across all years, averaging **88%** agreement.
    - Mentorship and counselling showed improvement in higher years, averaging **86% agreement**.
    - Learning environment scored positively but highlights in early years a need for engagement-focused interventions.
2. **Facilities**:
    - Lab and library facilities were rated above average but require enhancement in infrastructure and accessibility for consistency.

Head
Dept. Electronics & Comm. Engg.
Dr. B. C. Roy Engineering College
Durgapur

- Internet access and canteen services consistently received lower ratings, demanding immediate attention.

Actions Taken

1. **Internet Facilities Upgrade**
   - Collaborated with IT services to install high-speed Wi-Fi routers in classrooms, labs, and hostels.
2. **Canteen Overhaul**
   - Menu revision based on student preferences and quality control measures initiated with periodic cleanliness audits.
3. **Enhanced Mentorship**
   - Introduced structured mentorship programs across all years, pairing students with faculty mentors for career and academic guidance.
4. **Modern Lab Equipment**
   - Procured new tools for the **Xilinx Lab** and **Advanced Prototyping Lab**, improving access to state-of-the-art equipment.
   - Initiated open lab hours for project-based learning and extracurricular activities.
5. **Workshops and Holistic Development**
   - Conducted regular workshops on research skills, communication, and industry-relevant topics, averaging 2 events per semester.

Recommendations

1. **Sustained Infrastructure Improvement**
   - Allocate resources for internet and canteen upgrades to meet consistent student satisfaction levels.
   - Regular maintenance and audits for cleanliness and hygiene in hostels and campus facilities.

A. SWOT ANALYSIS:

SWOC	ANALYSIS
STRENGTH:	S-1:Reputed degree Engineering college in West Bengal S-2:Availability of experienced faculty S-3:Good Institute infrastructure S-4:Excellent students output &employability S-5:Excellent learning resources E-learning S-6:Financial stability S-7:Excellent land availability for future college expansion
WEAKNESS:	W-1:Weak Industry – institute interaction/ collaboration W-2:Weak Research and development culture W-3:Lack of Accreditation W-4:Admission procedure is mandated by Govt. W-5:Demographic disadvantage owing to tertiary location of the institute. W-6:No autonomy in structuring syllabi. W-7:Lack of opportunity for developing Industry Institute partnership
OPPORTUNITIES:	O-1:SME& Institute partnership O-2:Opportunity for consultancy arrangement between O-3:SME and Institute O-4:Opportunity for Alumni networking O-5:Huge opportunity for resource sharing with reputed central Institutes. O-6:Huge opportunity for Accreditation of B.Tech. Programs.

Threats / Challenges:	C-1:Lackluster growth in manufacturing industries creating socio economic flux C-2:Without accreditation academic growth will be severely affected C-3:Lack of fillip for higher learning and retention of human resources. C-4:There is serious competition from other good and well equipped private Institutions - so BCREC must grow fast in academics & research. C-5:Spasmodic capacity building initiatives.

Internal Academic Audit (2023-24 Academic Year)

Electronics and Communication Engineering: Date: 03-Sep-2024

Auditors: Dr. Sanjay Sengupta & Dr. Pabitra Dey

1. The student faculty ratio is found to be 13 which is good. However, it is suggested that faculty list should be revisited and corrected in consultation with the Registrar section for 2023-24 academic year. If any inter departmental transfer is there the same should be also included in the faculty list with date of transfer.
2. Cadre ratio is found to be 1:2:7 which is good.
3. There are 11 journal publications and 33 conference publications by the faculty members. Considering the total number of faculty member journal publications should be increased. The conference publication count is good. However, as per the standard of NAAC two conference publications by each faculty member per year should be attempted.
4. It has been suggested by some faculty members offering Add-On courses that this should be given proper weightage on performance indicator of the faculty. The auditors noted it and the same will be placed in the upcoming IQAC meeting for consideration.
5. In the audit report discrepancies are found in the reporting of Journal data and conference data. In case of Journal data ISSN/ ISBN / UGG CARE list link must be included as per the requirement of reporting to NAAC. For conference publication data ISBN must be included for the proceeding. For Book chapter / Book also ISBN is mandatory. The support document for conference / book chapter must include the pages,where name of the proceeding / book is appearing, page where ISBN number for the proceeding / book is appearing, Index page where the name of the publication and authors are mentioned and the first page of the publication. The same needs to be maintained and reported as per the requirement and Standard operating procedure (SOP) of NAAC.
6. Course file for Odd semester is ready. Course files of the even semester should be completed after the publication of the result of post publication review by the university.
7. Data for the students availing Government scholarship is well collected and kept ready with proper support documentation
8. In the audit report data for higher studies or qualified for different examinations e.g. GATE, CAT etc. is missing. It is suggested that if data is not available for the present year students, then may be tried to be collected from the alumni also who have moved for higher studies in the current academic year.
9. In the summary sheet data needs to be updated. This should be done before the external academic audit. The updated document should be sent to IQAC for reporting
10. Course delivery for all courses are not yet started with LMS CANVAS as per the recommendation of IQAC. Some faculty members (less than 50%) are using Google Class Room as course delivery tool for only one course. It is suggested that all courses should be attempted to be delivered through LMS CANVAS in the even semester of the 2024-25 academic year. This should include all details as per the requirement of the course file.

H.COURSE FILEP REPARATION AND VERIFICATION:

Course file should include:

1. Vision & Mission of the Institute 2. Vision & Mission of the Department 3. Program Outcomes (POs) 4. Program Specific Outcomes (PSO) 5. Course Outcomes (COs) 6. Class Time Table & Faculty Time Table 7. Syllabus 8. Course handouts/Lecture schedule (include the list of additional topics to meet the outcomes, if required?) 9. Assignments/Tutorial question papers with solutions 10. Continuous evaluation papers with solutions 11. Lecture notes (Hand written/typed) 12. Consolidated attendance statement of students 13. Consolidated semester grades of students 14. Result analysis 15. Sample copies of evaluated answer scripts of Class test, assignments, tutorials, lab records(Highest, average and marginal pass). 15. Weak learner and advanced learner identification. 16. Remedial measures for weak learners

L. STUDENT REGISTRATION AND ENROLMENT DETAILS

Included are the admitted student for the academic year and the all other students who are enrolling during the odd semester.

Supporting documents for category and state of domicile maintained

Supporting documents for scholarships maintained.

Supporting documents for placement maintained.

Supporting documents for students progressing to higher studies maintained.

Supporting documents for students appearing for different examinations maintained.

P. FEEDBACK (STUDENT, PARENT, ALUMNI)

Whether the feedback is taken and action taken reports are prepared. Course end feedback and Program end feedback are required.

BCR/ EE / MOM / ATR /2024-2025,

Action Taken Report (ATR) on feedback of Electrical Engineering students for Academic year 2023-24.

A special DAC meeting was held on 02-08-2024 at FF117 to discuss the action taken report based on feedback of students for the AY 2023-2024. Students of EE department participated in the online feedback hosted by college website.

U. SWOT ANALYSIS:

SWOC	ANALYSIS
STRENGTH:	1.Highly qualified and experienced faculty with 19 nos. having doctorates degree and rest registered with various universities for their Ph.D. work. 2.The department is equipped with 4 nos. software labs and 7 nos. hardware labs, a departmental library, one project center (Tesla Project Lab), lecture halls(including one digital classroom) and conference room. At present department is developing Electrical Vehicle laboratory and Renewal Energy Laboratory for research purpose. 3.Atal FDP, " Sustainability and Innovation in Energy Engineering and Sensors Technology" was successfully organized taking grant of fund from AICTE, in the Electrical Department from 15/01/2024-20/1/2024. 4. Department is utilizing the services of Alumni of this college by Mock interviews, organizing industrial training programs(both online lectures by leading technocrats/experts from industry and actual practical training in industry) short visits to local industries in Durgapur for technical exposure of students. 4.Seminars/ webinars are conducted for quality improvement of faculty and students. 5.Faculty members and B. Tech, M.Tech students publish research papers in conferences and research journals. 6.Department publishes an e-magazine where faculty members, staff and students get an opportunity to publish their innovative projects, technical writeups, science fiction and hand sketches, etc. 7.Department takes extra classes for weak students and advanced class for strong students. GATE classes are organized for aspiring students. 8.Students of the department take active role in extracurricular activities like tech fests, industrial and science fairs and cultural festivals. 9.The students get chances to do innovative projects in the tesla project lab. 10.Recently the college received Autonomous status.
WEAKNESS:	1.Communication skills of students coming from vernacular medium background is poor. However, soft skill classes are regularly conducted for their improvement. 2.Lack of sponsored project from industrials. At present we are undergoing a process of signing a MOU with SAIL and DVC.

	3.Lack of patents though two faculties have already applied for patent.
OPPORTUNITIES:	1. Good infrastructure. 2. Qualified and dedicated faculty. 3. Encouragement for growth from management. 4. Atmosphere in the college campus is conducive to a good work study environment. 5. Lots of facilities like libraries, project labs, tutorials, e-magazine etc. for staff and students.
Threats / Challenges:	1. Bagging of more sponsored projects. 2. Application for sponsored FDP, Conference, Workshop from AICTE.

D. DEPARMTENTAL DECENTRALIZED WORKING STRUCTURE

Different departmental committees with minutes of meeting of the committees (for decentralized working)

(Only provide Structure / Committees etc. Minutes of meetings will be cross verified at time of audit)

Different departmental committees with minutes of meeting of the committees (for decentralized working). The **Departmental Academic Committee (DAC)**, comprising all faculty members, serves as the core decision-making body. The following committees have been formed so that delegation of other activities related to the department may be carried out smoothly. The committees are:

1. Departmental Summer Internship committee
2. Departmental Examination committee
3. Departmental Admission committee
4. Departmental Budget committee
5. Departmental Library committee
6. Departmental R&D committee
7. Departmental MDP & Consulting Committee

These committees ensure that delegation of work is streamlined and discussions from DAC are addressed appropriately. The minutes of these meetings document decisions and progress, ensures transparency and accountability. Any discussion in DAC related to the aforementioned matters are generally taken up by the respective committees in their ensuing meetings. The Minutes of Meeting of the DAC and the above committees are attached separately.

S. ANY BEST PRACTICE FOLLOWED BY THE DEPARTMENT

Best practice with supporting details of implementation

There are myriad good practices at FMS which contribute immensely to the success of the students and the program in particular.

However, a few activities need special mention. They are:

1. Classroom to Corporate Sessions: - "Classroom to Corporate" sessions are organized for final year students to prepare them for industries and make them aware of the corporate culture.

This includes: -

a) Employability Aptitude test (EAT): - Online aptitude test for final-year students is conducted at the beginning of every year. After an assessment, a diagnosis is prepared for various sections like logical reasoning, mathematics, and linguistics. Third-party assessors like Aon Cocubes and AMCAT are harnessed in the process, followed by continuous support of regular Assessment Based Training to make the students ready for the Campus Recruitment Processes.

b) Functional Domain Based Training (FDBT): To enhance the skills of our students and make them industry ready, regular- equipping and tooling their core competencies in their specialization domains like Finance, HR, Marketing, Operations, etc. is ensured vide these comprehensive training for more productive results. These are a set of

Assessment Based Training where our alumni and Industry partners play a key role.

c) Soft Skills Enhancement Program (SSEP): - Skills concerned with Time Management, Planning and Prioritization, Attitude, Verbal and Nonverbal Skills, Effective Communication Skills, Group Discussion and Team Building Skills, Etiquette, and Interview Skills are facilitated with a continuous assessment-based training program with a diagnostic-prescriptive approach to ensure enhanced levels of productivity.

2. Special Value Added Courses: Students at FMS get a holistic 360-degree exposure with the MBA program that translates theory into practice. FMS students get trained in how to handle the business and also how to improve their soft skills.

Here, teaching is not only confined to classroom learning but students get exposure by applying the classroom concepts in the projects practically. There are various value-added courses which are available for students. A certificate for each of the courses is provided to the student and it may be reflected as a MOOCS Credit point as well. Listed below are the value-added courses offered in the AY 2023 - 2024.

a) VA 101- Principles of Management
b) VA 201 - Soft Skills for Managers
c) VA 202 – Spreadsheets for Managers
c) VA 301 –Research Methodology
d) VA 401- Data Analytics Tools for Managers

A. SWOTANALYSIS:

S W O C	**A N A L Y S I S**
STRENGTH:	Established Department with Experienced Faculty members. Excellent Learning Resources and Placement facility at a reasonable Price point, offering value to prospective students. Good Alumni connect and Industry connect with faculty members conducting MDPs.
WEAKNESS:	Location far away from corporate houses, for regular industry-interactions, no control in modifying syllabi to include latest advancements, not accredited by international/Govt bodies or featuring in top NIRF rankings.
OPPORTUNITIES:	Scope for consultancy with the SME and other Private and Public sector industries, scope for obtaining research grants and projects from Govt institutions
Threats / Challenges:	Lesser job prospects in adjoining area and some students unwilling to venture out poses a challenge for quality placements. Quality of admissions has taken a hit with proliferation of management institutes across the country.

Comments of the Auditors:

Detailed discussions were held between the auditor, faculty members, technical assistants and office personnel during the audit. Sample files related to different activities were also presented and gone through by the auditor. Based on all the above, the following observations are made.

- Dr. B.C. Roy ~~College of~~ College Engineering has recently been granted autonomy from AY 2024-25 onwards. Accordingly, the department of Civil Engg. has geared up for preparing new B.Tech. Curriculam and syllabus for B.Tech second year onwards, students
- Faculty strength is good. Out of eleven faculty members four are doctorates. Another three are expected to submit final PhD thesis shortly while the rest are either enrolled or, in the process of enrolling for PhD. As a whole, the academic profile of the faculty members of the department is healthy.
- Publication of faculty members in conference & book chapters is good. However, more effort is needed to increase publications in reputed journals.
- Each faculty member is found to be adequately involved in both academic & administrative responsibilities of the institute.
- Many faculty development programmes (FDP) are attended by faculty members. However, it will be more helpful & effective if they attend only such FDPs which are aligned to their area of specialisation/research and relevant ~~inter-disp~~ inter-disciplinary themes.
- Technical Assistants (TA) are ~~as~~ important for imparting technical education to students as well as helping in research of faculty members. TAs of the department are found to be adequately qualified and are involved in both technical and relevant administrative activities.

Comments of the Auditors: (Contnd.)

- Due emphasis is given by the department on maintaining Course Files for each individual lecture/laboratory subjects.
- Department is found to have been maintaing the record of each mentored student
- Department gives due effort in sending students for training/internship. Each year NHAI offers a number of paid internships to the students of this department (as per an existing agreement/understanding). The department follows a transperant screening process to select the students for this purpose.
- The department gives due effort in attracting testing/consultancy jobs from nearby industry.
- Utilisation of fund is impressive (around 90%).
- It is found that a few of the faculty members are continuing # in the AGP 6000 even after five years of service. Similarly, there has been no promotion of TAs after 1/1/2019. This aspect may be looked at.
- Support to the faculty membess for attending conference etc. may be enhanced further.
- Very importantly, the enrolment in First year B Tech in Civil Engg. has been low for 2023-24 & 2024-25 ~~batch~~ entry batch. This aspect needs to be looked at from a holistic point of view. Accordingly, all relevant and possible measures may be explored to improve the admission scenario.

Internal Academic Audit (2023-24 Academic Year)

Electronics and Communication Engineering: Date: 03-Sep-2024

Auditors: Dr. Sanjay Sengupta & Dr. Pabitra Dey

1. The student faculty ratio is found to be 13 which is good. However, it is suggested that faculty list should be revisited and corrected in consultation with the Registrar section for 2023-24 academic year. If any inter departmental transfer is there the same should be also included in the faculty list with date of transfer.
2. Cadre ratio is found to be 1:2:7 which is good.
3. There are 11 journal publications and 33 conference publications by the faculty members. Considering the total number of faculty member journal publications should be increased. The conference publication count is good. However, as per the standard of NAAC two conference publications by each faculty member per year should be attempted.
4. It has been suggested by some faculty members offering Add-On courses that this should be given proper weightage on performance indicator of the faculty. The auditors noted it and the same will be placed in the upcoming IQAC meeting for consideration.
5. In the audit report discrepancies are found in the reporting of Journal data and conference data. In case of Journal data ISSN/ ISBN / UGG CARE list link must be included as per the requirement of reporting to NAAC. For conference publication data ISBN must be included for the proceeding. For Book chapter / Book also ISBN is mandatory. The support document for conference / book chapter must include the pages,where name of the proceeding / book is appearing, page where ISBN number for the proceeding / book is appearing, Index page where the name of the publication and authors are mentioned and the first page of the publication. The same needs to be maintained and reported as per the requirement and Standard operating procedure (SOP) of NAAC.
6. Course file for Odd semester is ready. Course files of the even semester should be completed after the publication of the result of post publication review by the university.
7. Data for the students availing Government scholarship is well collected and kept ready with proper support documentation
8. In the audit report data for higher studies or qualified for different examinations e.g. GATE, CAT etc. is missing. It is suggested that if data is not available for the present year students, then may be tried to be collected from the alumni also who have moved for higher studies in the current academic year.
9. In the summary sheet data needs to be updated. This should be done before the external academic audit. The updated document should be sent to IQAC for reporting
10. Course delivery for all courses are not yet started with LMS CANVAS as per the recommendation of IQAC. Some faculty members (less than 50%) are using Google Class Room as course delivery tool for only one course. It is suggested that all courses should be attempted to be delivered through LMS CANVAS in the even semester of the 2024-25 academic year. This should include all details as per the requirement of the course file.

1. Faculty list to be revisited and corrected in consultation with the Registrar section for 2023-24 academic year. If any inter departmental transfer is there the same should be also included in the faculty list with date of transfer.
2. In the audit report discrepancies are found in the reporting of Journal data and conference data. The same needs to be maintained and reported as per the requirement and Standard operating procedure (SOP) of NAAC.
3. The number of journal and conference publications is found to be less considering the available number of faculties in the department. It is suggested to make small research group among faculty members such that all faculty members at least should be able to publish two conference papers with all the requirements as specified in point no. 2 above.
4. Some events are reported in the Audit report. However, it is found that all events which happened in the department has not been reported. It is to be noted that all events which are conducted directly by department (workshop / seminar) etc., along with the events as conducted by the student chapter / clubs of the department should be also reported. Events are not reported in the data repository, which is a serious concern for the central level reporting.
5. In the audit report data for higher studies or qualified for different examinations e.g. GATE, CAT etc. is missing. It is suggested that if data is not available for the present year students, then may be tried to be collected from the alumni also who have moved for higher studies in the current academic year.
6. It has been found that the budget utilization in the Training& Travel head, Seminar / Workshop/ FDP head is less. Form the next academic year the same should be given due consideration for improvement.
7. FDP data of the faulty members found to be missing in the audit report. The same should be included in the report.
8. Course file for Odd semester is ready. Course files of the even semester should be completed after the publication of the result of post publication review by the university.
9. Course delivery through LMS has not yet been started as per IQAC recommendation. It is suggested that all courses should be attempted to be delivered through LMS CANVAS in the even semester of the 2024-25 academic year. This should include all details as per the requirement of the course file.

INTERNAL ACADEMIC AUDIT

DATE : 12-Sep-2024

Master of Computer Application:

Auditors: Dr. Sanjay Sengupta & Dr. Somroop Siddhanta

1. Faculty strength is adequate in the department. Present cadre ratio is 0:1:7.This needs to be improved.
2. It has been observed that some faculty members have been upgraded to faculty position based on their qualification from the previous positions e.g. technical assistant. The date of joining of such faculty members need to be changed to the date when they are upgraded to faculty position.
3. Course file preparation has been taken up seriously and Odd semester course file preparation is complete for all subjects. Even semester course file could not be completed as there is delay in post publication review by university. Once the same is over, course file for even semester will be also completed.
4. It has been observed that number of FDPs per faculty member is more than two in some cases. It is suggested that, one FDP of 6 days should be sufficient per faculty member for an Academic year. Faculty members may be encouraged to do self-paced certificate course on cutting edge technologies.
5. The journal publication and conference / book chapter publication is found to be too less. As the department is a PG department it is suggested that the culture of publication is Journal and conferences must be enhanced. PG students may be involved and encouraged to do one conference publication at least with their supervisors.
6. It is found that in some cases project group size is exceeding 3 to 4. This should be avoided as the department is a PG department. Project group size should be reduced to two students per group.
7. Workshop / seminar conducted by the department has not been reported in the audit report. It has been clarified by the departmental coordinator that two workshops were carried out and reported in the data repository. It is suggested to organize more workshop / seminar on recent trends through industry persons and alumni, such that students get familiar with the industry trends. Even it has been found that the budget kept for workshop / seminar remained unutilized.
8. Budget utilization is found to overall 72%. However, it has not been reported back to accounts department. The same should be done on priority. It has been observed that fund utilization for R&D head and Workshop / Seminar head is less. Department should take proactive measures in utilizing such funds from the next financial year.
9. Placement percentage is found to be less. Department should take proactive measure to make the students industry ready such that placement percentage improves.
10. Department is getting students from without science background as per the present prescribed norm by university. Faculty members flagged out difficulties in delivering the curriculum. Bridge courses may be introduced which should be taken separately such that gaps may be reduced. Delay in admission process has been flagged as one of major concern area where offering bridge course separately becomes difficult.
11. Courses are being offered through LMS CANVAS by faculty members in line with the IQAC suggestions. Form the even semester of next academic year all courses will be targeted to be offered though LMS.
12. Department does not have any MoU with industry or research organization. It is suggested if a MoU can be signed during the academic year 2024-25.

Internal Academic Audit (2023-24 Academic Year)

Electronics and Communication Engineering: Date: 03-Sep-2024

Auditors: Dr. Sanjay Sengupta & Dr. Pabitra Dey

1. The student faculty ratio is found to be 13 which is good. However, it is suggested that faculty list should be revisited and corrected in consultation with the Registrar section for 2023-24 academic year. If any inter departmental transfer is there the same should be also included in the faculty list with date of transfer.
2. Cadre ratio is found to be 1:2:7 which is good.
3. There are 11 journal publications and 33 conference publications by the faculty members. Considering the total number of faculty member journal publications should be increased. The conference publication count is good. However, as per the standard of NAAC two conference publications by each faculty member per year should be attempted.
4. It has been suggested by some faculty members offering Add-On courses that this should be given proper weightage on performance indicator of the faculty. The auditors noted it and the same will be placed in the upcoming IQAC meeting for consideration.
5. In the audit report discrepancies are found in the reporting of Journal data and conference data. In case of Journal data ISSN/ ISBN / UGG CARE list link must be included as per the requirement of reporting to NAAC. For conference publication data ISBN must be included for the proceeding. For Book chapter / Book also ISBN is mandatory. The support document for conference / book chapter must include the pages,where name of the proceeding / book is appearing, page where ISBN number for the proceeding / book is appearing, Index page where the name of the publication and authors are mentioned and the first page of the publication. The same needs to be maintained and reported as per the requirement and Standard operating procedure (SOP) of NAAC.
6. Course file for Odd semester is ready. Course files of the even semester should be completed after the publication of the result of post publication review by the university.
7. Data for the students availing Government scholarship is well collected and kept ready with proper support documentation
8. In the audit report data for higher studies or qualified for different examinations e.g. GATE, CAT etc. is missing. It is suggested that if data is not available for the present year students, then may be tried to be collected from the alumni also who have moved for higher studies in the current academic year.
9. In the summary sheet data needs to be updated. This should be done before the external academic audit. The updated document should be sent to IQAC for reporting
10. Course delivery for all courses are not yet started with LMS CANVAS as per the recommendation of IQAC. Some faculty members (less than 50%) are using Google Class Room as course delivery tool for only one course. It is suggested that all courses should be attempted to be delivered through LMS CANVAS in the even semester of the 2024-25 academic year. This should include all details as per the requirement of the course file.

Internal Academic Audit

Date-:10/09/2024

Master of Business Administration:

Auditors: Dr. Sanjay Sengupta & Dr. Pabitra Dey

1. Faculty cadre ratio in the department is 02:01:07 -> 1:0.5:3.5. This requires a little more improvement as the department is only a PG department. The number of faculty members available is satisfying the student faculty ratio.
2. Faculty list reported in the audit report should be revisited. The release date of the faculty member who left should be updated.
3. It has been observed too many FDPs are done by the faculty members. This may be restricted to at least one and maximum two FDPs per academic year. Faculty members may be encouraged to do self-paced certificate course on cutting edge management techniques.
4. In the audit report discrepancies are found in the reporting of Journal data and conference data. In case of Journal data ISSN/ ISBN / UGG CARE list link must be included as per the requirement of reporting to NAAC. For conference publication data ISBN must be included for the proceeding. For Book chapter / Book also ISBN is mandatory. The support document for conference / book chapter must include the pages where name of the proceeding / book is appearing, page where ISBN number for the proceeding / book is appearing, Index page where the name of the publication and authors are mentioned and the first page of the publication. The same needs to be maintained and reported as per the requirement and Standard operating procedure (SOP) of NAAC.
5. The event reporting in the audit report as well as in the data repository has been completed for all the events conducted in the department. The process for the event reporting has been followed meticulously.
6. Result analysis is done. It is suggested more detailed level analysis of result should be done with diagrammatic representations for subject wise details as well as for the overall result. The details of the students passing without any backlog also need to be tracked through result analysis.
7. One / two faculty members offering one / two courses only using LMS CANVAS. However, course delivery through LMS has not yet been started for all subjects as per IQAC recommendation. It is suggested that all courses should be attempted to be delivered through LMS CANVAS in the even semester of the 2024-25 academic year. This should include all details as per the requirement of the course file.
8. Department does not have any MoU with industry or research organization. It is suggested if a MoU can be signed during the academic year 2024-25.
9. It has been found students proceeding for higher studies /students appearing for UGC NET or any other examinations and clearing it after MBA not reported in the audit report. It is suggested to include such data. Alumni data should be also tracked for this reporting.
10. Overall conference and book chapter publication improved. Journal publication is less. It is suggested if final year project work quality can be enhanced as the department is PG department the Journal publication can improve.

INTERNAL ACADEMIC AUDIT

Date: 03rd Sep 2024

Electrical Engineering:

Auditors: Dr. Sanjay Sengupta & Dr. Pabitra Dey

1. The student faculty ratio is found to be 12 which is good. However, it is suggested that faculty list should be revisited and corrected in consultation with the Registrar section for 2023-24 academic year. If any inter departmental transfer is there the same should be also included in the faculty list with date of transfer.
2. Cadre ratio is 1:1:12. This needs to be improved in the coming academic years.
3. Faculty list should be prepared and listed in a sequence of Professor / Associate Professor / PhD (with date of joining) / Contractual faculty.
4. Load calculation should be presented semester wise for a faculty not for an academic year. Load for Project should not be included in the faculty load calculation.
5. Total number of journal publication is 12 which is very less considering the number of faculty members available in the department. It is suggested to make small research group among faculty members such that all faculty members start publishing in journal.
6. Conference / Book Chapter publications as reported needs to be revisited at a detailed level and corrected. In the audit report discrepancies are found in the reporting of Journal data and conference data. In case of Journal data ISSN/ ISBN / UGG CARE list link must be included as per the requirement of reporting to NAAC. For conference publication data ISBN must be included for the proceeding. Computer Science and Design:

Auditors: Dr. Sanjay Sengupta & Dr. Pabitra Dey

1. Faculty ratio in the department is 1:0:3. The department is short of 2 faculty members. The department is run by the support of the allied departments. In the coming academic year more requirement of the faculty members will be there in the department. It is suggested that the same may be discussed with the office of the Principal for getting some new faculty members in the department.
2. It is found that the course file preparation for the Odd semester is incomplete. The course file preparation from the other departments taking the course of CSD department has not been tracked. The same must be tracked and should be completed immediately. The course files for even semester also to be prepared. It is getting delayed due to the publication of post publication result by university
3. The number of journal publication is less. This need to be improved. In line with the NAAC standard operating procedure UGC CARE listing of journal must be included in the audit documentation.
4. The reporting of conference publications is found to be correct with the presence of all relevant supporting documents. However, for the reporting of book chapters discrepancies found.For Book chapter / Book also ISBN is mandatory. The support document for book chapter must include the pages where name of the book is appearing, page where ISBN number for the book is appearing, Index page where the name of the publication and authors are mentioned and the first page of the publication. The same needs to be maintained and reported as per the requirement and Standard operating procedure (SOP) of NAAC.
5. The events related to workshops / seminar / student chapter activity are not reported in the audit report. The same also has not been reported in the central data repository. Proper attention regarding this should be given at the department level and the process of reporting should be followed.
6. Reporting of Vocational training / Internship data is found to be not done in proper format. This should be rectified. Also, the soft copy of the internship certificates should be maintained at the department level. The same must be also reported at the central level for the reporting of NAAC. Immediate action should be taken regarding the same and the missing reports must be sent to the IQAC.
7. It has been observed that the student participation and the award data is missing. It has been pointed out by the auditors that there are some awards received by the students of the CSD department which is in their knowledge, which should be included in the report.
8. Course wise feedback as received not analysed and Action taken Report (ATR) not properly prepared for the same. The ATR for the different feedback obtained should be prepared giving proper attention and considering the different initiatives of the department regarding addressing different concerns raised by the students. More detailed ATR should be reported.
9. It has been observed that for the final year students there is no class room available. The routine has been adjusted to accommodate the classes of final year in the room of the other semesters during their laboratory hours. One more laboratory equipped with computers is suggested. The same should be reported to the office of the Principal such that the same may be available from the coming academic year.

Basic Science and Humanities:

Auditors: Dr. Sanjay Sengupta & Dr. Pabitra Dey

1. Faculty ratio only of the Basic Science and Humanities is 0:3:18 (15 full time + 3 part time). The faculty list details of the faculty members from other department taking first year classes and load of their relevant load is not reported in the audit report. The same must be included to have a clear view of faculty members taking first year courses which is a primary requirement for NBA and NAAC at the institute level review.
2. It has been observed that although there is a mention of load distribution in the Department Academic Council meeting the details of the load is not included with the minutes. The same should be included along with DAC minutes.
3. It has been observed that course files for odd semester for all the courses taken by BS&H is not yet complete. Immediate attention regarding the same should be taken before the external audit. For Even semester as the result publication and review process by the university has been delayed, it can be only completed after that.
4. LMS (CANVAS) usage for all courses should be started. For a very few courses it has been taken up. It is suggested that all course delivery through LMS CANVAS (free version) should be started from 2024-25 academic year.
5. Faculty development program participation data found to be incomplete in the audit report. The data reported for a very few faculty members. It is suggested that one FDP program of 5-6 days each faculty member should attend.
6. No publication data is reported. Serious concern is raised regarding the same. It is suggested that faculty members should start with conference publications. They can form small groups specific to their area of interest or specialization and attempt for publication. Faculty members should involve with engineering / MBA / MCA departments for student project work / research work.
7. There is an issue of event reporting. There must be a sync with the academic audit data and report of the events to repository. It is suggested that starting 2024-25 academic year all events conducted by the department / any faculty member who is convenor or co-ordinator of any event must report the event through ERP within 10 days of the event being conducted. Head of the Department should verify whether the event has been reported.
8. Although the course wise feedback is available, it has not been meticulously collected by the faculty members taking first year courses. Lot of gap has been noted regarding the same. The action taken report has not been also prepared based on the received feedback for the courses.

Master of Computer Application:

Auditors: Dr. Sanjay Sengupta & Dr. Somroop Siddhanta

1. Faculty strength is adequate in the department. Present cadre ratio is 0:1:7.This needs to be improved.
2. It has been observed that some faculty members have been upgraded to faculty position based on their qualification from the previous positions e.g. technical assistant. The date of joining of such faculty members need to be changed to the date when they are upgraded to faculty position.
3. Course file preparation has been taken up seriously and Odd semester course file preparation is complete for all subjects. Even semester course file could not be completed as there is delay in post publication review by university. Once the same is over, course file for even semester will be also completed.
4. It has been observed that number of FDPs per faculty member is more than two in some cases. It is suggested that, one FDP of 6 days should be sufficient per faculty member for an Academic year. Faculty members may be encouraged to do self-paced certificate course on cutting edge technologies.
5. The journal publication and conference / book chapter publication is found to be too less. As the department is a PG department it is suggested that the culture of publication is Journal and conferences must be enhanced. PG students may be involved and encouraged to do one conference publication at least with their supervisors.
6. It is found that in some cases project group size is exceeding 3 to 4. This should be avoided as the department is a PG department. Project group size should be reduced to two students per group.
7. Workshop / seminar conducted by the department has not been reported in the audit report. It has been clarified by the departmental coordinator that two workshops were carried out and reported in the data repository. It is suggested to organize more workshop / seminar on recent trends through industry persons and alumni, such that students get familiar with the industry trends. Even it has been found that the budget kept for workshop / seminar remained unutilized.
8. Budget utilization is found to overall 72%. However, it has not been reported back to accounts department. The same should be done on priority. It has been observed that fund utilization for R&D head and Workshop / Seminar head is less. Department should take proactive measures in utilizing such funds from the next financial year.
9. Placement percentage is found to be less. Department should take proactive measure to make the students industry ready such that placement percentage improves.
10. Department is getting students from without science background as per the present prescribed norm by university. Faculty members flagged out difficulties in delivering the curriculum. Bridge courses may be introduced which should be taken separately such that gaps may be reduced. Delay in admission process has been flagged as one of major concern area where offering bridge course separately becomes difficult.
11. Courses is being offered through LMS CANVAS by faculty members in line with the IQAC suggestions. Form the even semester of next academic year all courses will be targeted to be offered though LMS.
12. Department does not have any MoU with industry or research organization. It is suggested if a MoU can be signed during the academic year 2024-25.

Computer Science and Engineering:

Auditors: Dr. Sanjay Sengupta & Dr. Pabitra Dey

1. Faculty list to be revisited and corrected in consultation with the Registrar section for 2023-24 academic year. If any inter departmental transfer is there the same should be also included in the faculty list with date of transfer.
2. In the audit report discrepancies are found in the reporting of Journal data and conference data. The same needs to be maintained and reported as per the requirement and Standard operating procedure (SOP) of NAAC.
3. The number of journal and conference publications is found to be less considering the available number of faculties in the department. It is suggested to make small research group among faculty members such that all faculty members at least should be able to publish two conference papers with all the requirements as specified in point no. 2 above.
4. Some events are reported in the Audit report. However, it is found that all events which happened in the department has not been reported. It is to be noted that all events which are conducted directly by department (workshop / seminar) etc. along with the events as conducted by the student chapter / clubs of the department should be also reported. Events are not reported in the data repository, which is a serious concern for the central level reporting.
5. In the audit report data for higher studies or qualified for different examinations e.g. GATE, CAT etc. is missing. It is suggested that if data is not available for the present year students, then may be tried to be collected from the alumni also who have moved for higher studies in the current academic year.
6. It has been found that the budget utilization in the Training& Travel head, Seminar / Workshop/ FDP head is less. Form the next academic year the same should be given due consideration for improvement.
7. FDP data of the faulty members found to be missing in the audit report. The same should be included in the report.
8. Course file for Odd semester is ready. Course files of the even semester should be completed after the publication of the result of post publication review by the university.
9. Course delivery through LMS has not yet been started as per IQAC recommendation. It is suggested that all courses should be attempted to be delivered through LMS CANVAS in the even semester of the 2024-25 academic year. This should include all details as per the requirement of the course file.

Information Technology:

Auditors: Dr. Sanjay Sengupta & Dr. Pabitra Dey

1. Faculty list to be revisited and corrected in consultation with the Registrar section for 2023-24 academic year. If any inter departmental transfer is there the same should be also included in the faculty list with date of transfer.
2. Cadre ratio requires some improvement.
3. All the faculty members have attended at least one FDP. It is suggested that, one FDP of 6 days should be sufficient per faculty member for an Academic year. Faculty members may be encouraged to do self-paced certificate course on cutting edge technologies.
4. In the journal listing link to the UGC CARE listing is missing. This must be included as per the requirement of NAAC.
5. Journal publication number is found to be very less. Conference publication number is 9. The numbers of publications should be improved from academic year 2024-25.
6. Course files for some of the courses for Odd semester is still pending. These should be taken up for completion on priority basis before the external audit. Course files of the even semester should be completed after the publication of the result of post publication review by the university.
7. Budget utilization is found to be 70% and reporting of the same has not been done to accounts department. It has been observed that utilization of budget for R&D and Seminar / Workshop/ FDP head is less. The same is suggested to be improved for the next academic year.
8. Only four courses are being offered by using LMS system Google Class Room. As per IQAC recommendation course delivery through LMS has not yet been started for all courses. It is suggested that all courses should be attempted to be delivered through LMS CANVAS in the even semester of the 2024-25 academic year. This should include all details as per the requirement of the course file.
9. Overall academic audit reporting and documentation is found to be good. Some suggestions are made for inclusion of some more data of higher studies for alumni if possible.

Electronics and Communication Engineering:

Auditors: Dr. Sanjay Sengupta & Dr. Pabitra Dey

1. The student faculty ratio is found to be 13 which is good. Mechanical Engineering:

Auditors: Dr. Sanjay Sengupta & Dr. Jayanta Pal

1. Cadre ratio in the department is 1:1:6. Which is good. A little improvement is required for the cadre ratio. Student faculty ratio is maintained.
2. In the audit report discrepancies are found in the reporting of Journal data and conference data. In case of Journal data ISSN/ ISBN / UGG CARE list link must be included as per the requirement of reporting to NAAC. For conference publication data ISBN must be included for the proceeding. For Book chapter / Book also ISBN is mandatory. The support document for conference / book chapter must include the pages where name of the proceeding / book is appearing, page where ISBN number for the proceeding / book is appearing, Index page where the name of the publication and authors are mentioned and the first page of the publication. The same needs to be maintained and reported as per the requirement and Standard operating procedure (SOP) of NAAC.
3. Number of journal publication needs improvement. Small research groups among faculty members are suggested to improve the number of publications in the journal. As the department is having PG course, the PG students should be involved in the journal publication. The number of conference publications is found to be very less compared to the faculty members in the department. A proactive approach should be taken at the department level to improve the conference publications to two publications per faculty in the coming academic year.
4. Events are reported in the academic audit report. However, many events have not been reported in the central data repository. The pending reporting should be completed immediately.
5. Some Course files for Odd semester is still pending. These should be immediately completed. Course files of the even semester should be completed after the publication of the result of post publication review by the university.
6. Some courses are delivered through LMS as per IQAC recommendation. Google class rooms are used by some faculty members. However, all course delivery through LMS has not yet been started as per IQAC recommendation. It is suggested that all courses should be attempted to be delivered through LMS CANVAS in the even semester of the 2024-25 academic year. This should include all details as per the requirement of the course file.
7. Data for the students availing Government scholarship is well collected and kept ready with proper support documentation
8. Participation in FDP by faculty members is good. Department is also taking initiatives for ATAL FDP approval from AICTE such that the same can be conducted in the coming academic year.

Computer Science and Design:

Auditors: Dr. Sanjay Sengupta & Dr. Pabitra Dey

1. Faculty ratio in the department is 1:0:3. The department is short of 2 faculty members. The department is run by the support of the allied departments. In the coming academic year more requirement of the faculty members will be there in the department. It is suggested that the same may be discussed with the office of the Principal for getting some new faculty members in the department.
2. It is found that the course file preparation for the Odd semester is incomplete. The course file preparation from the other departments taking the course of CSD department has not been tracked. The same must be tracked and should be completed immediately. The course files for even semester also to be prepared. It is getting delayed due to the publication of post publication result by university
3. The number of journal publication is less. This need to be improved. In line with the NAAC standard operating procedure UGC CARE listing of journal must be included in the audit documentation.
4. The reporting of conference publications is found to be correct with the presence of all relevant supporting documents. However, for the reporting of book chapters discrepancies found. For Book chapter / Book also ISBN is mandatory. The support document for book chapter must include the pages where name of the book is appearing, page where ISBN number for the book is appearing, Index page where the name of the publication and authors are mentioned and the first page of the publication. The same needs to be maintained and reported as per the requirement and Standard operating procedure (SOP) of NAAC.
5. The events related to workshops / seminar / student chapter activity are not reported in the audit report. The same also has not been reported in the central data repository. Proper attention regarding this should be given at the department level and the process of reporting should be followed.
6. Reporting of Vocational training / Internship data is found to be not done in proper format. This should be rectified. Also, the soft copy of the internship certificates should be maintained at the department level. The same must be also reported at the central level for the reporting of NAAC. Immediate action should be taken regarding the same and the missing reports must be sent to the IQAC.
7. It has been observed that the student participation and the award data is missing. It has been pointed out by the auditors that there are some awards received by the students of the CSD department which is in their knowledge, which should be included in the report.
8. Course wise feedback as received not analysed and Action taken Report (ATR) not properly prepared for the same. The ATR for the different feedback obtained should be prepared giving proper attention and considering the different initiatives of the department regarding addressing different concerns raised by the students. More detailed ATR should be reported.
9. It has been observed that for the final year students there is no class room available. The routine has been adjusted to accommodate the classes of final year in the room of the other semesters during their laboratory hours. One more laboratory equipped with computers is suggested. The same should be reported to the office of the Principal such that the same may be available from the coming academic year.

Master of Business Administration:

Auditors: Dr. Sanjay Sengupta & Dr. Pabitra Dey

1. Faculty cadre ratio in the department is 02:01:07 -> 1:0.5:3.5. This requires a little more improvement as the department is only a PG department. The number of faculty members available is satisfying the student faculty ratio.
2. Faculty list reported in the audit report should be revisited. The release date of the faculty member who left should be updated.
3. It has been observed too many FDPs are done by the faculty members. This may be restricted to at least one and maximum two FDPs per academic year. Faculty members may be encouraged to do self-paced certificate course on cutting edge management techniques.
4. In the audit report discrepancies are found in the reporting of Journal data and conference data. In case of Journal data ISSN/ ISBN / UGG CARE list link must be included as per the requirement of reporting to NAAC. For conference publication data ISBN must be included for the proceeding. For Book chapter / Book also ISBN is mandatory. The support document for conference / book chapter must include the pages where name of the proceeding / book is appearing, page where ISBN number for the proceeding / book is appearing, Index page where the name of the publication and authors are mentioned and the first page of the publication. The same needs to be maintained and reported as per the requirement and Standard operating procedure (SOP) of NAAC.
5. The event reporting in the audit report as well as in the data repository has been completed for all the events conducted in the department. The process for the event reporting has been followed meticulously.
6. Result analysis is done. It is suggested more detailed level analysis of result should be done with diagrammatic representations for subject wise details as well as for the overall result. The details of the students passing without any backlog also need to be tracked through result analysis.
7. One / two faculty members offering one / two courses only using LMS CANVAS. However, course delivery through LMS has not yet been started for all subjects as per IQAC recommendation. It is suggested that all courses should be attempted to be delivered through LMS CANVAS in the even semester of the 2024-25 academic year. This should include all details as per the requirement of the course file.
8. Department does not have any MoU with industry or research organization. It is suggested if a MoU can be signed during the academic year 2024-25.
9. It has been found students proceeding for higher studies /students appearing for UGC NET or any other examinations and clearing it after MBA not reported in the audit report. It is suggested to include such data. Alumni data should be also tracked for this reporting.
10. Overall conference and book chapter publication improved. Journal publication is less. It is suggested if final year project work quality can be enhanced as the department is PG department the Journal publication can improve.
