### INVITATION

It is of course a great pleasure to announce that we are going to organize a One-day Seminar on "Strategic Communication Management for Engineering Professionals" at Dr. B. C. Roy Engineering College Durgapur on July 21<sup>st</sup>, 2018. The basic purpose of the present seminar is to have a deliberative as well as interactive session among the students, faculty and accomplished practicing engineers from different organizations about the progress and latest development made in the broad areas of Communication Management --- Issues and Challenges.

### INTRODUCTION

It was perhaps in January 2009, that Google first officially highlighted the paucity of employable graduates. Despite their formal degrees, industry recruiters with NASSCOM found 75% of our graduates to be unemployable. As teacher researchers in Business Communication teaching, we find that even today, the situation largely remains the same. This is an area of serious concern. Though linguistically and domain knowledge-wise

seemingly efficient, our graduates were deemed to be deficient in strategic communication management. This is perhaps because the lacuna lies both on the part of teachers as well as program managers and the learners. Though different university accredited professional programmes offer a coded paper on communication, the gap remains. Teaching – Learning modules in such papers, for example Reading Comprehension, Public Speaking, Communicative theories, Business Messages and Grammar are included in the curriculum, they effectively fail to address the real-time needs of the corporate sector, which absorb fast developing technical innovations to catch up with the globalized world order.

Why is there this gap between the competence generated in the classroom and that desired by the industry?

This platform is a convergence of the ideas of our distinguished speakers from the industry who will enlighten the audience regarding the asks of real-time strategic communication management in the industry today and its associated challenges.

### About the Venue

Dr. B.C. Roy Engineering College, Durgapur, is dedicated to the memory of Dr. Bidhan Chandra Roy, the architect of modern West Bengal and BCREC management is deeply committed to gradually build the college as one of the best seats of Engineering and Management Education in Eastern India with domestic and global requirements in view.

BCREC was set up with a view to be a leader in imparting quality technical education in the country. Since inception, BCREC has created one of the finest infrastructures and is fortunate to attract some of the best faculty. BCREC generates top quality Engineering professionals and managers year after year which is, indeed, a true service to the nation.
