

7/4/18 to 8/4/18

Traditional Programming Vs Machine Learning

Learning Content

- Getting Started with Python

In this module, you will understand what Python is and why it is so popular? You will also learn how to set up Python environment, Flow control and will write your first Python program

- Sequences and File Operations

In this Module you will learn different types of sequences in Python, the power of Dictionary and how to use files in Python.

- Deep Dive - Functions, Sorting, Errors and Exception Handling

In this Module you will understand how to use and create functions, sorting different elements, Lambda function, and error handling techniques and regular expressions and using modules in Python.

- Machine Learning Using Python - I

This module will help you understand what machine learning is? Why Python is preferred for it and some important packages used for scientific computing.

Date:

Subject:

Respected Sir,

This is to inform you that we the few students of this college would like to request you to give out two days class attendance (date 07/04/17 - 08/04/17) as we are attending the workshop on Data Scientist.

Hope you'll consider the matter and grant us attendance for two days class for this we will be grateful to you.

Thanking you

Yours Obedient

The below
Twenty two students
have participated in two days
Seminar on 7/4/17 and 8/4/17
